ORDINANCE AMENDMENT #1-2009

$\frac{1}{2}$	Ordinance Amendment offered by Supervisors of the Planning and Zoning Committee.
2 3 4	Resolved by the Board of Supervisors of Oneida County, Wisconsin:
5 6 7 8 9 10	WHEREAS, the Planning & Zoning Committee, having considered Petition #1-2009, (copy attached) which was filed May 12, 2009, to amend Chapter 13, The Oneida County Private Onsite Wastewater Treatment System Ordinance, and having given notice thereof as provided by law and having held a public hearing thereon June 3, 2009, and having been informed of the facts pertinent to the changes which are as follows:
10 11 12 13 14 15	WHEREAS, the proposed ordinance amendment addresses the Wisconsin Department of Commerce mandate to require Oneida County to inventory all private onsite wastewater treatment systems (POWTS) within three years and place them in a maintenance program within five (5) years; and
16 17 18	WHEREAS, the proposed ordinance amendment updates Chapter 13 due to revisions to Wisconsin Administrative Code Comm83; and
19 20 21	WHEREAS, the proposed ordinance amendment addresses the Wisconsin Department of commerce concerns regarding existing language.
21 22 23	And being duly advised of the people in the area affected as follows:
24 25 26 27 28 29	A public hearing was held on June 3, 2009 and no one in attendance opposed the changes. All Towns were sent a notice and no one provided comments. A special mailing to licensed POWTS installers, service providers and certified soil testers and none provided comment. The Wisconsin Department of commerce has reviewed and approved the proposed changes.
29 30 31 32	NOW THEREFORE, BE IT RESOLVED , that the Oneida County Board of Supervisors hereby accepts and approves Petition # 1-2009 and ordains as follows:
32 33 34 35 36 37	<u>Section 1:</u> Any existing ordinances, codes, resolutions, or portion thereof in conflict with this ordinance shall be and are hereby are repealed as far as any conflict exists. <u>Section 2:</u> If any claims, provisions, or portions of this ordinance are adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of the ordinance shall not be affected thereby.
38 39 40 41	Section 3:If any claims, provisions, or portions of this ordinance are adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of the ordinance shall not be affected thereby.Section 4:Additions noted by underline; deletions noted by strikethrough.
42 43	Chapter 13, The Oneida County Private Onsite wastewater Treatment System (POWTS) Ordinance is amended as follows:

(5) Allow municipal ownership of a private sewage system servicing multiple structures on different parcels. 13.12 <u>FINDINGS OF FACT</u> Oneida County has over 1,127 lakes and other water bodies within its boundaries. It has a large amount of vacation properties that are used on an intermittent basis. The land area of Oneida County includes 791,347 acres and 68,096 acres of surface water. The soil in Oneida County is predominately sandy or loamy, which has moderate to very rapid permeability, but poor treatment capabilities. (Soil Survey, Oneida County, Wisconsin, February 1993.) Water supplies in Oneida County are predominately drawn from sand and gravel 									
 In order to achieve these purposes, it is the intent of this ordinance to include, but not be limited to, the following methods and strategies: (1) Develop a sanitary permit program that continues to ensure public health, safety and welfare to the residents and visitors of Oneida County. (2) Limit the use of holding tanks to protect surface water and groundwater resources. (3) Maintain and improve the inspection and enforcement process for new system installation. (4) Improve the maintenance and tracking program for systems previously installed as well as new systems installed each successive year. (5) Allow municipal ownership of a private sewage system servicing multiple structures on different parcels. 13.12 FINDINGS OF FACT Oneida County has over 1,127 lakes and other water bodies within its boundaries. It has a large amount of vacation properties that are used on an intermittent basis. The land area of Oneida County includes 791,347 acres and 68,096 acres of surface water. The soil in Oneida County is predominately sandy or loamy, which has moderate to very rapid permeability, but poor treatment capabilities. (Soil Survey, Oneida County, Wisconsin, February 1993.) Water supplies in Oneida County are predominately drawn from sand and gravel

178 use for drinking water supplies. (Soil Survey, Oneida County, Wisconsin, February,									

1993).

181 13.13 <u>SEVERABILITY AND LIABILITY</u>.

Should any section, clause, provision or portion of this ordinance be adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this ordinance shall not be affected thereby.

This ordinance shall not create a liability on the part of or a cause of action against the County or any employee thereof for any private sewage system or non-plumbing sanitation system which may not function as designed. There shall be no liability or warranty for any site which is approved or denied. The issuance of a sanitary permit and the final inspection of such a system does not warrant the system's function, nor is there a guarantee that the system is free of defects or that all aspects of the system comply to Wisconsin Statute or Administrative Code requirements.

13.14 INTERPRETATIONS.

The provisions of this ordinance shall be held to be minimum requirements and shall be liberally construed in favor of the County and shall not be deemed a limitation or repeal of any other power granted by the Wisconsin Statutes and related administrative codes.

13.15 DEFINITIONS.

The following terms shall have the meanings indicated in this section.

Buildings. See Structure.

<u>Conventional In-Ground Sewage System.</u> A private sewage system consisting of a septic tank and an in-ground soil absorption component with gravity distribution of effluent.

<u>County Sanitary Permit</u>. A permit issued by the Department for the reconnection of a private sewage system or for the installation of a non-plumbing sanitation system, pursuant to §59.70 and 145.04, Wisconsin Statutes.

Department. The Oneida County Planning & Zoning Department.

Failing Non-Plumbing Sanitation Systems.

- (a) The discharge of sewage into surface water or groundwater.
- (b) The introduction of sewage into zones of saturation which adversely affects the operation of the non-plumbing system.
- (c) The discharge of sewage to a drain tile or into zones of bedrock.
- (d) The discharge of sewage to the surface of the ground.

Failing Private Sewage System. "Failing private sewage system" has the following meanings:

- (1) Those specified under §145.245(4), Wisconsin Statutes.
- (2) A holding tank which discharges sewage to the ground surface, including

intentional discharges and discharges caused by neglect, shall be considered a failing private sewage system.

- (3) A POWTS system installed after December 1, 1969 that has less than 36" of vertical separation between the infiltrative surface of a POWTS and high groundwater, or bedrock pursuant to Wisconsin Administrative Code Comm 83.32(2)(b).
- (2) <u>A private sewage system which discharges sewage to the ground surface,</u> <u>including intentional discharges and discharges caused by neglect, shall be</u> <u>considered a failing private sewage system.</u>

Holding Tank. A water tight receptacle for the collection and holding of wastewater.

<u>Human Habitation</u>. The act of occupying a structure as a dwelling or sleeping place, whether intermittently or as a principal residence.

<u>Issuing Agent</u>. The County Planning & Zoning Department shall act as the County Issuing Agent and is hereby assigned the duties of administering the Private Sewage System Program.

<u>Large Onsite Sewage Systems.</u> An onsite sewage system with a subsurface discharge that is designed to treat wastewater from residential buildings that contain the equivalent of more than 85 bedrooms. For those systems with a subsurface discharge that treat wastewater from other types of occupancies (non-residential), a large onsite sewage system means a system with a daily effluent application rate of greater than 8,000 gallons per day (gpd). The design wastewater flow for these systems is 150% of the daily effluent application – (12,000 gpd).

Minor Repairs. A minor repair to a private sewage system includes the replacement or repair of any of the following:

- a. manhole covers;
- b. manhole risers;
- c. septic tank baffles;
- d. effluent pumps and related controls or wiring;
- e. other components as determined by the Department.

<u>Modification of Wastewater Flow or Contaminant Load</u>. A modification in wastewater flow or contaminant load shall be considered to occur:

In public buildings, facilities or places of employment, when there is a proposed change in occupancy of the structure; or the proposed modification affects either the type or number of plumbing appliances, fixtures or devices discharging to the system; and

In dwellings, when there is an increase or decrease in the number of bedrooms.

<u>Non-plumbing Sanitation System.</u> Sanitation systems and devices within the scope of Comm 91, Wisconsin Administrative Code, which are alternatives to water carried waste plumbing fixtures and drain systems; including, but not limited to, incinerating toilets, composting toilets and privies.

Occupancy. Pertains to and is the purpose for which a building is used or intended to be

281 282 283	used. A change of occupancy is not intended to include a change of tenants or proprietors.
284 285 286	<u>Plumber</u> . A person licensed by the State as a Master Plumber or Master Plumber-Restricted Service.
287 288 289	<u>POWTS.</u> A Private Onsite Wastewater Treatment System and also referred to as Private Sewage System.
290 291 292	<u>Portable Restroom.</u> A self-contained portable unit that includes fixtures, incorporating holding tank facilities, designed to contain human excrement.
293 294 295	Private Sewage System. Also referred to as a "Private Onsite Wastewater Treatment System" or "POWTS", has the meaning given under s. 145.01(12), Wisconsin Statutes.
296 297 298	<u>Privy</u> . An enclosed nonportable toilet into which nonwater-carried human wastes are deposited.
298 299 300	Privy-Pit. A privy with a subsurface storage chamber which is not watertight.
301 302	Privy-Vault. A privy with a subsurface storage chamber that is watertight.
302 303 304 305	<u>Rebuilt</u> . The construction which takes place after a structure is demolished or damaged to the extent of fifty percent (50%) of its current equalized assessed value.
306 307 308	Sanitary Permit. The term "sanitary permit", as used in this ordinance shall mean a County Sanitary Permit, a State Sanitary Permit or both.
309 310	Septic Tank. An anaerobic treatment tank.
311 312 313 314	<u>Shoreland-Wetland</u> . A wetland of 5 acres or more on the Wisconsin Wetland Inventory Map within 1,000' of the ordinary highwater mark of navigable waters of a wetland less than 5 acres but are located in whole or in part within 200' of a navigable lake or stream.
314 315 316 317	Soil and Site Evaluation Application. An application submitted for the purpose of requesting County verification of a Soil and Site Evaluation Report.
318 319	State. The Wisconsin Department of Commerce.
320 321 322	<u>State Sanitary Permit.</u> A permit issued by the Department or the Department of Commerce for the installation or modification of a private sewage system, pursuant to §145.135 and 145.19, Wisconsin Statutes.
323 324 325 326	<u>Structure</u> . Anything for support, shelter, or enclosure of persons on property, including but not limited to any building, dwelling, manufactured building, manufactured home, mobile homes, house trailer, recreational vehicle, boathouse, or deck.

SUBCHAPTER 2

GENERAL REQUIREMENTS

13.20 <u>COMPLIANCE</u>.

- (1) All structures or premises in the County that are permanently or intermittently intended for human habitation or occupancy, which are not serviced by a public sewer, shall have a system for holding or treatment and dispersal of sewage and wastewater which complies with the provisions of this ordinance.
- (2) The private sewage system or non-plumbing sanitation system for newly constructed structures or structures requiring a Reconnection Permit shall be installed, inspected, and approved before the structure may be occupied.

13.21 INCORPORATION OF PROVISIONS BY REFERENCE.

This ordinance incorporates by reference the following rules, regulations, and laws, as set forth in the Wisconsin Statutes and the Wisconsin Administrative Code governing the location, construction, and use of private sewage systems: §59.70(5), Chs. 145, 281.48, 283.31 and 968.10, Wisconsin Statutes; Chs. Comm 52.63, Comm 5, Comm 81, Comm 82, Comm 83, Comm 84, Comm 85, Comm 86, Comm 87, Comm 91, NR 113, NR 116 and NR 206 Wisconsin Administrative Code. These rules, regulations, and laws shall apply until amended or renumbered and then shall apply as amended or renumbered.

13.22 APPLICABILITY.

The requirements of this ordinance shall apply to all geographic areas of Oneida County.

13.23 LIMITATIONS

- (1) All domestic wastewater shall enter a private sewage system unless otherwise exempted by the State or this ordinance.
- (2) A non-plumbing sanitation system may be permitted only when the structure or premises served by the non-plumbing sanitation system is not provided with an indoor plumbing system. If plumbing is installed in the structure or running water is supplied to the structure, an acceptable method of sewage disposal other than, or in addition to, a non-plumbing sanitation system must be provided
- (3) Any private sewage system, or portion(s) thereof, installed within a floodplain shall comply with all applicable requirements of NR 116, Wisconsin Administrative Code, and the Oneida County Floodplain Zoning Ordinance, Chapter 20 of the General Code of Ordinances for Oneida County.
 - (4) (a) When a failing private sewage system or non-plumbing sanitation system is identified, it shall be brought into compliance with current code requirements, replaced with a code compliant system or its use discontinued within that period of time required by Department order.
 - (b) Unlawfully modified private sewage systems, a private sewage system that has sewage by-passed or a holding tank which is discharging untreated or partially treated sewage to into the ground, onto ground surface or into surface waters, may be ordered by the Department to be corrected or replaced with a code compliant system.

378 379	13.24	DELAYED IMPLEMENTATION (Effective date to be inserted)			
380		(1)	Delayed Implementation.		
381		(1)	(A) The issuance of sanitary permits for the construction or use of POWTS		
382			designs that utilize a method or technology that is added to the list under		
383			Comm 83.61 after July 1, 2000 shall be prohibited for not more than 6		
384			months, pursuant to Wisconsin Administrative Code Comm 83.04(2)(a) &		
385					
385			(b).		
			(1) These subsections shall be limited to normite intended to		
387			(1) These subsections shall be limited to permits intended to		
388			serve new development.		
389			(2) For the purpose of this subsection, a new development		
390			shall be considered a property without an existing habitable		
391			building.		
392	40.05				
393	13.25	PROF	IIBITION		
394					
395		(1)	The issuance of a sanitary permits for the construction or use of POWTS designs		
396			that utilize one or more of the following technologies, designs or methods below		
397			shall be prohibited pursuant to Wisconsin Administrative Code Comm		
398			83.32(2)(a):		
399					
400			 (a) An evapotranspiration bed as a POWTS treatment component. 		
401					
402		(2)	No large onsite sewage system shall be installed or operated in Oneida County.		
403			This prohibition shall not apply to:		
404					
405			(a) Any large onsite sewage system for which a Water Pollution Discharge		
406			Elimination System (WPDES) permit has been issued by the Wisconsin		
407			Department Natural Resources (WDNR) pursuant to Wisconsin Statutes		
408			Section 283.31		
409					
410			Any large-scale onsite sewage system shall be subject to ongoing		
411			maintenance and operating strategies required by the WDNR including		
412			periodic permit review and renewal. Failure of the owner of a large onsite		
413			sewage system to have a valid WPDES permit or renewal thereof from		
414			the WDNR, shall constitute violation of this ordinance and be subject to		
415			penalties specified in 13.63(2).until such time as the owner demonstrates		
416			that a valid WPDES permit has been again issued by the WDNR.		
417					
418		(3)	Pursuant to Wisconsin Administrative Code Comm 83.32(2)(c) the issuance of		
419		()	sanitary permits shall be prohibited for POWTS that service two (2) or more		
420			structures or buildings that are located on more than one property. This		
421			prohibition shall not apply to a POWTS that has a design flow of 3,000 gallons		
422			per day or less, or POWTS systems that have a design flow of greater than 3,000		
423			gallons per day and are owned by a governmental entity or agency such as a		
424			Sanitary District, Utility District, or Special Purpose District.		
425					
426	13.26	ABAN	DONMENT OF PRIVATE SEWAGE SYSTEMS		
427					
428		(1)	When public sewers approved by the Department of Natural Resources become		

429 available to the structure or premises served, the private sewage system shall be
430 disconnected within one year and a connection made to the public sewer.
431 Determination of whether sewer is available shall be made by the local sewer
432 service entity.

Abandonment of the disconnected private sewage system shall be done in accordance with the provisions of Comm 83, Wisconsin Administrative Code.

(2) The components of an existing private sewage system that are not part of the approved design of a replacement system shall be abandoned per Comm 83, Wisconsin Administrative Code at the time of the installation of the replacement system by the plumber installing the system.

442 13.27 <u>NON-PLUMBING SANITARY SYSTEMS</u> 443

- (1) Non-plumbing sanitary systems shall comply with the minimum requirements of Wisconsin Administrative Code Comm 91 unless this ordinance is more restrictive.
 - (2) Privies shall be sturdily constructed and maintained in a clean and healthful condition.
 - (3) Privies shall be located at the minimum horizontal distance of:
 - (a) 25 feet from dwellings.
 - (b) 10 feet from lot line.
 - (c) 25 feet from a slope 15% or greater.
 - (d) 50 feet from any well.
 - (e) 75' from the Ordinary High Water Mark of a lake or stream.
 - (f) 25' from a shoreland/wetland.

SUBCHAPTER 3

PERMITS AND APPLICATIONS

461 13.30 <u>SOIL AND SITE EVALUATION</u>. 462

- (1) Soil and site evaluations shall be done prior to the issuance of sanitary permits as specified in Comm 83, Comm 85 and Comm 91, Wisconsin Administrative Code.
- (2) Soil test pits shall be constructed which allow adequate visual observation of the soil profile in place. This is best accomplished by the excavation of backhoe pits or other methods approved by the Department.
 - (3) Department verification of a Soil and Site Evaluation Report may be necessary to determine the suitability of a lot for a private sewage system. This verification will be made at the discretion of the Issuing Agent and will be made prior to the issuance of the sanitary permit. Department verification shall be required on all sites that have less than 12 (twelve) inches of in-situ soil, suitable for the treatment and disposal of effluent, unless specifically waived by the Issuing Agent. This verification will result in one of the following:
 - (a) Issuance of the permit, provided all information on the application is correct and complete.
 - (b) Establishment of a file indicating site suitability.
 - (c) Holding the application pending clarification of information or new information by the owner, the plumber, or the certified soil tester.
 - (d) Denial of the permit if the site does not meet all the provisions of this ordinance and appropriate Wisconsin Statutes and Administrative Codes.
- (4) A certified soil tester may request Department verification of a Soil and Site Evaluation Report before a complete sanitary permit application is submitted. Application for this verification shall include all information required in §13.31(2)(a)(1-6) on forms provided by the Department, and the original copy of the Soil and Site Evaluation Report. and as many copies as are required by the Department. The Department reserves the right to refuse verification of a Soil and Site Evaluation report in accordance with Comm 85.30(5).
- 491 13.31 <u>SANITARY PERMIT APPLICATIONS</u>. 492
 - (1) General
 - (a) Every private sewage system shall require a separate application and sanitary permit.
 - (b) A Sanitary Permit shall be obtained by the property owner, his agent or contractor, in the name of the property owner, prior to the installation, establishment or construction of any structure which requires a private sewage system or non-plumbing sanitation system. Any property owner, his agent or contractor, who starts construction prior to obtaining a sanitary permit is in violation and may be subject to the penalties provided in this ordinance.
- 503(c)A Sanitary Permit shall be obtained by the property owner, his agent or
contractor, before any private sewage system or part thereof may be
installed, replaced, repaired reconnected or modified. A sanitary permit is
not required for the addition of manhole risers or for the replacement of
manhole covers, manhole risers, baffles or pumps minor repairs.

508 (d) A County Sanitary Permit shall be obtained prior to constructing or 509 installing a non-plumbing sanitation system. 510 A County Sanitary Permit shall be required for soil remediation or (e) 511 renovation processes such as physical (i.e. Terralift[™]) or chemical (i.e. 512 Porox[™]). A County Sanitary Permit is not required for soil remediation or 513 renovation processes if the POWTS was installed after January 1, 1980. 514 (f) If any part of a private sewage system has failed or requires replacement 515 or modification, the entire system shall be evaluated for compliance with 516 existing codes that existed at the time of installation prior to sanitary 517 permit issuance. This shall include a soil and site evaluation for those 518 components that utilize in situ soil for treatment or dispersal, unless a 519 valid report is already on file with the Department. 520 521 If any part of the system is found to be defective or not in conformance with the applicable 522 Provisions of this ordinance, the sanitary permit application shall include specifications for 523 the repair, renovation, replacement or removal of that part. 524 525 (2) **Application Requirements** 526 A sanitary permit application shall include the following information (A) 527 which shall be furnished by the applicant on forms required by the 528 State and/or the Department along with all applicable fees: 529 Names and addresses of the applicant (owner of the site) and the (1) 530 plumber employed (when applicable). 531 (2) Legal description of the subject site and the parcel identification 532 number. 533 (3) All lot dimensions. 534 Driving directions to the site. (4) 535 Building use (single family, duplex, etc.). (5) 536 (6) Soil and Site Evaluation report. 537 (7) System plans (see \$13.31(3)(a-f)). 538 Appropriate agreements and contracts for system management (8) 539 and maintenance. 540 Copies of any documents required in §13.31(2)(D)(1-5) and (9) 541 verification that they have been recorded. 542 Any other information required by the Department, including (10)543 verification of compliance with §13.61(11) of this ordinance. 544 When any official State action is required prior to the issuance of a (B) 545 sanitary permit, an original copy of the official action shall accompany the 546 application. 547 (C) Pit privy permit applications shall be accompanied by soil data provided 548 by a Certified Soil Tester to determine compliance with Comm 91, 549 Wisconsin Administrative Code. 550 (D) The following documents must be recorded with the Oneida County 551 Register of Deeds prior to sanitary permit issuance: 552 Maintenance requirements, if recording is required by Comm 83, (1) 553 Wisconsin Administrative Code, or §13.52 of this ordinance. 554 If a private sewage system, or parts thereof, are located on a (2) 555 different parcel than the structure served an appropriate 556 easement, Quit Claim Deed or Certified Survey map combing 557 combining the parcels must be recorded.

- (3) If a private sewage system serves more than one structure under different ownership, a document identifying all parties that have ownership rights and are responsible for the operation and maintenance must be recorded.
- (4) If a private sewage system is owned by a party other than the owner of the parcel on which it is installed, a document identifying the owner of the system, the structures to be served by the system, and the party responsible for operation and maintenance must be recorded.
- (5) If the design wastewater flow of a private sewage system for a dwelling is not based upon the number of bedrooms within the dwelling, a deed restriction specifying maximum wastewater flow must be recorded.
- (E) The Department reserves the right to require Floodplain and/or Wetland -delineation for a building site or proposed private sewage system area prior to sanitary permit issuance. The Department may require elevations on plans to be tied to floodplain elevation datum.
- (E)(F) The Department reserves the right to refuse incomplete or incorrect permit applications or to delay permit issuance until corrected or completed applications are received.
- (3) Plans

System plans shall be submitted for approval to the Department or to the State in accordance with Comm 83, Wisconsin Administrative Code. Plans shall comply with the requirements of Comm 83, Wisconsin Administrative Code, and this ordinance.

- (A) Plans submitted to the Department shall include the original and <u>two (2)</u> as many copies. as are required by the Department.
- (B) If plans are reviewed and approved by the State, at least one set of the plans submitted to the Department shall bear an original State approval stamp or seal.
- (C) Plans submitted shall be clear, legible and permanent copies.
- (D) Plans submitted shall comply with Comm 83, Wisconsin Administrative Code, and include the following:
 - (1) The name of the property owner and the legal description of the site, including parcel Identification number;
 - (2) Estimated daily wastewater flow and design wastewater flow.
 - (3) A detailed plot plan (site plan), dimensioned or drawn to scale, on paper no smaller than 8½ inches by 11 inches in size. The plot plan shall delineate the lot size and the location of all existing and proposed: private sewage system components; building sewers; private interceptor main sewers; wells; water mains or water services; buildings; lot lines; swimming pools; navigable waters; and the benchmark established on the Soil and Site Evaluation Report. Adjoining properties shall be checked to insure that the horizontal setback parameters in Comm 83.43, Wisconsin Administrative Code, are complied with. All separating distances and dimensions shall be clearly shown on the plot plan.
 - (4) Details and configuration layouts depicting how the system is to

608 be constructed. 609 (5) A description of a contingency plan in the event the proposed 610 private sewage system fails and cannot be repaired. 611 (6) Sufficient supporting information to determine whether the 612 proposed design, installation and management of the proposed 613 private sewage system or modification to an existing system 614 complies with this ordinance. 615 Plans shall be signed or sealed as specified in Comm 83, Wisconsin (E) 616 Administrative Code. 617 A copy of the approved plans shall be maintained at the construction site (F) 618 until the private sewage system installation is completed, inspected and 619 accepted. The plans shall be made available to the Department or the 620 State upon request. 621 (G) A modification to the design of a private sewage system which has been 622 previously approved shall be submitted to the Department or the State as 623 specified in Comm 83, Wisconsin Administrative Code. Plan revisions 624 must be approved prior to system installation. A fee may be charged 625 when submitting revised plans, see §13.37. 626 627 13.32 SANITARY PERMIT, GENERAL 628 629 **APPROVAL & CONDITIONS** 630 631 (1) Conditional Approval. 632 633 When applicable provisions of Wisconsin Statues, Wisconsin Administrative 634 Code and this Ordinance have been complied with when applying for a sanitary 635 permit, the permit shall be approved. Conditions may be attached to the permit 636 application to provide clarifications. 637 638 The permit shall only be valid for an installation that completely complies with 639 Wisconsin Statutes, Wisconsin Administrative Code and this Ordinance. Failure 640 to denote an error and/or correction on the permit application does not lessen the 641 requirements upon the applicant from installing a system and/or component that 642 meets the Wisconsin Statutes, Wisconsin Administrative Code and this 643 Ordinance. 644 (2) Permit Cards. 645 The permit card issued by the Issuing Agent to the property owner or his (a) 646 agent shall serve as the sanitary permit. 647 The permit card shall contain all the information required by §145.135, (b) 648 Wisconsin Statutes. 649 The permit card shall be displayed at the site in such a manner that it will (C) 650 be visible from a road abutting the lot during all construction phases. 651 The permit card may not be removed until the private sewage system has (d) 652 been installed, inspected, and approved by the Issuing Agent. 653 Failure to display the permit card shall be considered a violation of this (e) 654 section and may subject the property owner, his agent or contractor, to 655 penalty provisions of this ordinance. 656 (3) Permit Expiration. 657 A sanitary permit for a private sewage system or non-plumbing sanitation (a) 658 system which has not been installed, replaced, repaired, modified or

659				reconnected and approved shall expire two years after the date of		
660				issuance unless renewed. Permits may be renewed following written		
661				submittal of an application to the Department by the property owner, his		
662				agent or contractor, prior to the expiration date of the original permit.		
663			(b)	There shall be a fee for the renewal of a sanitary permit. (See §13.37.)		
664			(c)	The renewal shall be based on <u>Wisconsin Administrative Code</u> , <u>Statute</u>		
665			(0)	and ordinance requirements in force at the time of renewal.		
666			(d)	Changed <u>Wisconsin Administrative Code</u> , <u>Statute</u> and ordinance		
667			(u)	requirements may impede the renewal.		
668			(e)	The property owner, his agent or contractor, shall return the original		
669			(6)	permit card and receive, a <u>A</u> new permit card shall be issued when the		
670				permit card and receive. a <u>A</u> new <u>permit</u> card <u>shall be issued</u> when the permit is renewed.		
671			(f)	•		
672			(f)	All Sanitary permits issued prior to the effective date of this ordinance		
				which have been renewed shall expire two years from the date of		
673			(~)	issuance unless renewed renewal.		
674			(g)	A new sanitary permit shall be obtained by the owner or his agent prior to		
675		~	-	beginning construction if a sanitary permit has expired.		
676	(2	4)		fer of Ownership.		
677				fer of ownership of a property for which a valid sanitary permit exists shall		
678				bject to the following:		
679			(a)	The applicable State Sanitary Permit form shall be submitted to the		
680				Department.		
681			(b)	The sanitary permit card shall be returned to the Department so that a		
682				new permit card may be issued.		
683			(C)	Transfer of ownership shall not affect the expiration date or renewal		
684				requirements. There shall be a fee for transfer of ownership (see 13.37).		
685	(5	5)	Chang	ge of Plumbers.		
686			(a)	When an owner wishes to change plumbers, it will be necessary for him		
687				the owner to furnish the Department with the applicable transfer state		
688				form signed by the new plumber.		
689			(b)	System plans requiring State plan approval shall not be transferred to a		
690			. ,	different plumber unless the plan bears the stamp of an architect or		
691				engineer, plumbing designer, or a State level approval is obtained by the		
692				new plumber.		
693			(c)	There shall be a fee for change of plumbers. (See § 13.37).		
694	(6	6)		t Denial.		
695	(1	-,		applicable provisions of Wisconsin Statutes, Wisconsin Administrative		
696				or this Ordinance have not been complied with when applying for a sanitary		
697			permit, the permit shall be denied. The issuing agent shall issue written notice to			
698			the owner and the plumber whose sanitary permit application is denied. Each			
699			notice shall:			
700			(a)	State the specific reason for disapproval or amendments to the		
701			(a)	application, if any, which would render the application approval.		
702			(b)	Inform the applicant of the right to appeal and the procedures for		
703			(0)	conducing an appeal under the provision of §68.10, Wisconsin Statutes,		
704				and Chapter 17 of the General Code. The Oneida County Board of		
705				Adjustment shall conduct the appeal.		
705						
707	13 33 6			ERMIT, SPECIFIC REQUIREMENTS FOR APPROVAL		
708	10.00 <u>0</u>		TAKT I ENVIL, OF COFFIC REQUINEMENTS FOR AFFROVAL			
709	(1	1)	PO\//-	TS with portions crossing Town Roads.		
107	()	• /				

When portions of private sewage systems are proposed to cross Town Roads and/or encroach in a Town Road right-of-way, permission shall be obtained by the Town Board of that Town through an approved motion granting permission to cross the road at a Town Board meeting and/or through an easement granted by the Town Board. Certified copies of the minutes and/or the original easement shall be submitted with the sanitary permit application.

(2) POWTS with portions crossing Private Roads.

When portions of a private sewage system cross Private Roads owned fully or partially by others, permission shall be obtained through an easement.

(3) POWTS utilizing 12 inches or less of in situ soil.

Prior to submitting state plan approval for POWTS utilizing less than 12 inches of soil, a county soil and site evaluation shall be performed unless specifically waived by the Issuing Agent. A request for verification shall be made to the Department. The applicant shall provide all necessary equipment to perform such evaluation.

(3)(4)Multiple Soil/Site Evaluations for same parcel.

When more than one soil/site <u>evaluation</u> has been performed on a parcel, a county soil and site <u>evaluation</u> <u>verification</u> shall be performed. A request for verification shall be made to the Department. The applicant shall provide all necessary equipment to perform such <u>evaluation</u> <u>verification</u>. The Department may waive such verification provided the site/soil evaluations show similar findings.

(4)(5)Systems servicing serving more than one structure on different parcels.

When a POWTS is to serve two (2) or more structures or buildings that are located on more than one property with a design flow of more than 3,000 gallons a day of design flow (actual x 150%), the system is required to be owned by a governmental entity or agency. Documentation is required to be recorded pursuant to 13.31(2)(d)(3)&(4).

(5)(6)Administrative Code Variance Applications.

When petitioning the State for any Administrative Code Variance, a copy of the request shall be submitted by the petitioner to the Department. Additional documents shall provide background information, the options considered and the reasons why the options could not be used with strict adherence to the Administrative Code. The Department may request that other options be explored to eliminate the need for a variance. The Department shall be allowed to comment of on the petition for variance.

(6)(7)Pre-treatment components such as, but not limited to, Aerobic Treatment Units, Sand Filters, Re-Circulating Sand Filters, Gravel Filters, and Peat Filters.

Prior to approval of a POWTS pre-treatment unit <u>sanitary permit</u>, a detailed management plan shall be submitted to the Department. This management plan shall provide a list of all replacement equipment, the location as to where the replacement equipment can be obtained, a list of approved maintainers (which includes full names, addresses, <u>companies company</u> names, corresponding phone numbers), the corporate name, address and phone numbers of the equipment manufacturer.

Also prior to approval of a POWTS pre-treatment unit <u>sanitary permit</u>, a meeting shall take place between the Department, the installer and the property owner to ensure the installer and property owner are aware of the necessary site and maintenance requirements. The owner shall recognize that these systems require additional operational maintenance resulting in additional operational expenses.

A pre-construction meeting may be required at the site prior to installation of the pre-treatment component at the discretion of the Department. During this meeting, an overview of the work schedule shall be outlined with Department staff and applicant. Appropriate notices shall be made by the installer to ensure Department staff is in attendance.

(7)(8)Experimental Systems and Other Systems not recognized by Comm 83.61 83.60.

Prior to application for State experimental plan approval the applicant shall request a meeting with Department staff. During this meeting, information shall be presented to the Department which are is detailed in Comm 83.27. A comment period of no less than 30 days after the meeting shall be required by the Department prior to the applicant submitting the application to the State. Additional time may be requested by the Department.

The applicant shall provide a detailed contingency plan, outlining the steps that will be taken upon failure of the experimental system. Further, the Department may require surety bonds to insure that if the experimental system fails, necessary funds are available to restore the site and/or to promote the health and general welfare of residents and visitors of Oneida County.

The Department may require additional assurances from the applicant that the experiment will have no deleterious effects upon surface and groundwater. Examples of these assurances include requiring periodic Department inspections, regular-interval results examining the short-term and long-term effects at the site, applicant inspections at pre-determined intervals as well as any other similar requirement ensuring health and resource protection.

Also <u>pP</u>rior to approval of a <u>POWTS Treatment Unit</u> <u>sanitary permit for an</u> <u>experimental design</u>, a detailed management plan shall be submitted to the Department. This management plan shall provide a lists of all replacement equipment, the location as to where the replacement equipment can be obtained, a <u>minimum</u> list of approved maintainers (which includes full names, addresses, <u>companies company</u> name<u>s</u>, and corresponding phone numbers), the corporate name, address and phone numbers of the equipment manufacturer. Also prior to approval of <u>a sanitary permit for</u> Experimental and Other Systems not recognized by Comm 83.61 <u>83.60</u> a meeting shall take place between the Department, the installer and the property owner to ensure the installer and property owner are aware of the necessary site and maintenance requirements. The owner shall recognize that these systems may require additional operational maintenance resulting in additional operational expenses.

13.34 <u>RECONNECTION</u>.

- (1) A County reconnection permit shall be obtained prior to:
 - (a) Construction of a structure to be connected to an existing private sewage system;
 - (b) Disconnection of a structure from an existing private sewage system and connection of another structure to the system, except as permitted in §13.34(4); or
 - (c) Rebuilding a structure that is connected to a private sewage system.
- (2) Prior to issuing a reconnection permit, the existing private sewage system shall be examined to:
 - (a) Determine if it is functioning properly and whether it is a failing system.
 - (b) Determine if it will be capable of handling the proposed wastewater flow and contaminant load from the building to be served.
 - (c) Determine that all minimum setback requirements of Comm 83, Wisconsin Administrative Code, will be maintained.
- (3) Application for a County reconnection permit shall include the following:
 - (a) All items in (13.31(2)(a)(1-5)) and (13.31(2)(a)(9-11));
 - (b) For all systems that utilize in situ soil for treatment or disposal, a Soil and Site Evaluation report verifying that the vertical separation distance between the infiltrative surface of the existing treatment or dispersal component and estimated high groundwater elevation and/or bedrock complies with Comm 83, Wisconsin Administrative Code, unless a valid report meeting these criteria is on file with the department;
 - (c) A report provided by a licensed plumber, certified septage servicing operator or a POWTS inspector <u>or other person(s) authorized to do so by Comm. 83, Wisconsin Administrative Code</u> relative to the condition, capacities, baffles and manhole covers for any existing treatment or holding tanks;
 - (d) A report provided by a licensed plumber, or <u>a</u> POWTS inspector <u>or other</u> <u>person(s) authorized to do so by Comm. 83</u>, <u>Wisconsin Administrative</u> <u>Code</u> relative to the condition and capacities of all other system components and verifying that the system is not a failing system;
 - (e) A plot plan prepared by a plumber <u>or other person(s) authorized to do so</u> <u>by Comm. 83, Wisconsin Administrative Code,</u> including information specified in §13.31(3)(d)(3); and
 - (f) A state sanitary permit for any system components which will be modified or replaced.
 - (g) Reconnection to existing holding tanks may require a new servicing contract and an updated holding tank agreement which meets the requirements of this ordinance.
 - (h) Reconnection to an existing system other than a holding tank may require a new maintenance agreement or contract.
- (4) Replacing a structure with a new or different structure within two years of the

852

(b) Plumber transfer change (c) Owner transfer. (d) Re-inspection and additional inspection. (e) Revision. (1) A fee may be charged for any plan revision which is not submitted and approved by the department before inspection of the system has commenced. Revisions received after 30 days of system installation shall automatically be charged a revision fee. (2) If a plan revision results in a change to a system type or site for which a higher sanitary permit or plan is required, the difference between the fee already paid and the fee for the system installed will be charged. (f) Soil saturation determination. (g) Wisconsin Fund Application. (h) Monitoring and management tracking. (i) Soil and Site Evaluation Filing. 	
939 940 941 942 943 944 945 946 947 948	(6) (7) (8)	Refunds After the sanitary permit has been reviewed and/or issued, the fees shall not be refunded. New fees. The balance of the new fee shall be paid before the sanitary permit may be issued for any soil test or incomplete applications on file on the date the new fees become effective. After-the-fact permit fees. A triple fee will be charged for all after-the-fact permit applications to partially recover the cost of obtaining compliance.	

949 SUBCHAPTER 4

INSPECTIONS

13.40 INSPECTIONS; GENERAL.

- (1) Notice for final inspection shall be given to the Zoning Department for all private sewage systems installed, modified or reconnected.
- (2) These private sewage systems shall be inspected by the Department for compliance with Comm 82, Comm 83, Wisconsin Administrative Code, other appropriate Wisconsin Statutes and Administrative Codes and this ordinance.
 - (3) Notification for final inspection shall be given in accordance with the requirements of Comm 83 Wisconsin Administrative Code.
 - (4) The entire system shall be left completely open until it has been inspected and accepted by the Department as provided in Wisconsin Administrative Code Comm 83.26(2).unless the requirements of Comm 83, Wisconsin Administrative Code, are not met by the Department.
 - (5) When a private sewage system is ready for inspection, the plumber in charge shall make arrangements to enable the inspector to inspect all parts of the system. The plumber shall provide the proper apparatus, equipment and necessary assistance to make a proper inspection.
 - (6) Private sewage systems may be inspected periodically, after the initial installation inspection(s) and/or after the system is operative, as deemed necessary by the Issuing Agent
- 13.41 INSPECTIONS SPECIFIC
 - (1) Inspections: Site Constructed Holding Tanks.
 - (a) All site constructed holding tanks shall be inspected after the floor is poured and the keyway and water stop are installed or after the forms for the tank walls have been set but in all instances before any concrete for the walls has been poured.
 - (b) Concrete walls may be poured only after it has been determined that the tank, as formed, complies with the approved plans.
 - (c) This inspection shall not eliminate the need for an inspection after the installation has been completed.
 - (2) Inspections: Non-Plumbing Sanitary Systems.
 - (a) All non-plumbing sanitary systems installed shall be inspected for compliance with Comm 91, Wisconsin Administrative Code, or as amended, and this ordinance. Non-plumbing sanitary systems serving uses other than one and two family dwellings shall also be inspected for compliance with Comm 52.63, Wisconsin Administrative Code.
 - (b) The property owner shall notify the Department for inspection immediately after the non-plumbing sanitary system has been constructed or installed.
 - (3) Inspections: Mounds.
 - (a) The plumber installing the mound shall notify the Department the working day prior to the installation, excluding Saturdays, Sundays and holidays.
 - (b) Mound systems shall be inspected at the time the ground surface is plowed at the time the distribution piping installation has been completed and after all work has been completed.
 - (4) Inspections: At-grade.
 - (a) The plumber installing the at-grade shall notify the Department the

1000				working day prior to the installation, excluding Saturdays, Sundays and
1001				holidays.
1002			(b)	At-grade systems shall be inspected at the time the ground surface is
1003			()	plowed, at the time the distribution piping installation has been completed
1004				and after all work has been completed.
1005		(5)	Inspe	ections: Sand Filters.
1006		. ,	(a)	The plumber installing the sand filter shall notify the Department the
1007			()	working day prior to the installation, excluding Saturdays, Sundays and
1008				holidays.
1009			(b)	Sand filters shall be inspected at the time the liner or tank and underdrain
1010				are in place, before placement of any treatment media, at the time the
1011				distribution piping installation has been completed and after all work has
1012				been completed.
1013		(6)	Expe	rimental Systems and Systems not Recognized by Comm
1014				83.61.<u>83.60.</u>
1015			(a)	The plumber installing the system shall coordinate any required pre-
1016				construction meeting(s).
1017			(b)	The plumber installing the system shall notify the Department at least two
1018				(2) workdays prior to beginning the installation of the system to schedule
1019				the inspection(s) and shall notify the State as may be required by the
1020				approved plans.
1021			(c)	Inspections shall be done pursuant to the approved plans requirements
1022				and as deemed necessary by the Department to assure compliance with
1023				appropriate codes and the plan approval.
1024				
1025	13.42	REIN	ISPECT	<u>TION</u> .
1026				
1027		(1)		nspection fee shall be assessed when a reinspection of a private sewage
1028				m is required because the initial inspection disclosed that the installation is
1029				nplete at the scheduled inspection time or does not comply with applicable
1030				onsin Statutes, Administrative Codes, the approved plans or this ordinance.
1031				additional reinspection required at the site will require a fee.
1032		(2)	The	reinspection fee shall be due within ten workings days of written notification

(2) The reinspection fee shall be due within ten workings days of written notification by the Department. Failure to pay this fee within that period shall constitute a violation of this ordinance.

- (1) If testing of new systems or new system components is required by Comm 82, 83 or 84, Wisconsin Administrative Code, or as a condition of plan approval, notice shall be given to the Department as specified in §13.40(3), so that the Department may make an inspection during the test. (2)
 - The Department shall verify that required testing has been completed, by:
 - Performing an inspection during the test, (a)
 - Requiring written verification from the responsible person, or (b)
 - (c) Both a and b.

1046 1047 1048 1049	SUBC	НАРТ	ER 5 SYSTEM MANAGEMENT AND MAINTENANCE
1050	13.50	MAIN	TENANCE AND MANAGEMENT
1051 1052 1053 1054		(1)	All private sewage systems and non-plumbing sanitation systems shall be managed and maintained in accordance with Comm 83, 84 and 91, Wisconsin Administrative Code, and this ordinance.
1055 1056 1057		(2)	The property owner <u>or owner's agent</u> shall report to the Department each inspection, maintenance or servicing event, in accordance with Comm 83, Wisconsin Administrative Code, and this ordinance.
1058 1059 1060		(3)	The property owner shall submit a copy of an appropriate maintenance agreement and/or servicing contract to the Department prior to sanitary permit issuance.
1061 1062 1063		(4)	The property owner shall submit a new or revised maintenance agreement and/or servicing contract to the Department whenever there is a change to such document(s).
1064 1065 1066		(5)	The property owner shall submit a new maintenance agreement and/or servicing contract to the Department prior to expiration of any existing maintenance agreement and/or servicing contract.
1067 1068 1069		(6)	In order to satisfy the requirements of Com <u>m</u> 83.54 Oneida County shall continue to cooperate with Lake Protection & Rehabilitation Districts to evaluate, condemn and replace existing failing private sewage systems.
1070 1071 1072 1073		(7)	The applicant for a sanitary permit for a holding tank system shall sign a holding tank agreement with the county. in accordance with Comm. 83, Wisconsin Administrative Code.
1074	13.51	<u>SEPT</u>	IC TANK MAINTENANCE PROGRAM.
1075 1076 1077 1078 1079 1080		(1)	The applicant for a sanitary permit shall be provided with written notice of the maintenance program at the time the sanitary permit is issued. The records of this notification shall be maintained by the Issuing Agent. Upon sale of this property, the owner shall provide written notification of the maintenance program to the buyer.
1081 1082 1083 1084 1085		(2)	All <u>new and existing</u> POWTS permitted and installed on or after July 1, 1980 shall be visually inspected by a plumber, POWTS inspector or a person licensed under sec. 281.48 Wis. Stats., and pumped within three years of the date of installation and at least once every three years thereafter. unless upon inspection the septic tank is found to have less
1086 1087 1088 1089 1090		<u>(3)</u>	than 1/3 of the volume occupied by sludge and scum. All new and existing septic tanks shall be pumped within three (3) years of the date of installation and at least once every three (3) years thereafter, unless upon inspection the tank is found to have less than 1/3 of the volume occupied by sludge and scum.
1091		<u>(4)(</u> 3)	Pumping of a septic tank shall be done by a certified septage servicing

1092 operator in accordance with NR 113, Wisconsin Administrative Code.

- 1093(5)(4)Visual inspection of a private sewage system may be conducted by1094individuals specified in Comm 83.54(4)(d)(2), to determine the condition of1095the tank and whether wastewater or effluent from the POWTS is ponding1096on the ground surface.
- 1097 (6)(5) The owner or owner's agent of such septic tank a POWTS shall furnish the Department with a copy of the inspection report verifying the condition 1098 1099 of the tank, whether wastewater or effluent from the POWTS is ponding on 1100 the ground surface and the date of pumping within 10 30 calendar days of the date of inspection and pumping. Reports shall include all information 1101 required in Comm 83.55, Wisconsin Administrative Code, and be signed 1102 1103 by the person(s) inspecting and pumping the private sewage system. 1104 Other maintenance or management reports required by Comm 83 or 84, Wisconsin Administrative Code, should shall be included with this report. 1105 1106
 - (7)(6) If the septic tank is not maintained or inspected in conformance with state regulations, the Zoning Director shall order it to be maintained or pumped by a certified septage servicing operator at County expense. The County shall then invoice the property owner for all such costs incurred. If the invoice is not paid within 30 days, the county may place the amount on the tax roll as a special assessment pursuant to WI State Statutes 145.20(4) against the property in question.

1114 13.52 HOLDING TANK MAINTENANCE AGREEMENT 1115

- 1116 (1) The owner of the holding tank shall enter into a Maintenance Agreement 1117 with Oneida County before the sanitary permit is issued. The agreement shall be signed on a form provided by the Zoning Director, who shall sign 1118 1119 the agreement on behalf of the county. The agreement shall require the applicant to conform to state regulations regarding the maintenance and 1120 pumping of the holding tank. If the tank is not maintained and pumped in 1121 1122 conformance with state regulations, the Zoning Director shall order it to be maintained or pumped by a certified septage servicing operator, at county 1123 expense. The county shall then invoice the property owner for all such 1124 1125 costs incurred. If the invoice is not paid within 30 days, the county may 1126 place the amount on the tax roll as a special assessment pursuant to WI State Statutes 145.20(4) against the property in question. 1127 This 1128 Maintenance Agreement shall be filed in the Register of Deeds office and 1129 shall be recorded in a manner that will permit the existence of the agreement to be determined by reference to the property where the 1130 1131 holding tank is installed. (Effective 5/21/2006) 1132
 - (2) The owner or agent shall submit a copy of the holding tank Maintenance Agreement when plans are submitted to the Department for review.

1110

1111 1112

1113

(1) Property transfers for properties enrolled in the Oneida County POWTS

1138 Maintenance Program (Installed after July 1, 1980). Prior to the transfer of property enrolled in the Oneida County 1139 (a) POWTS Maintenance Program, the owner shall provide written 1140 1141 notification of the maintenance program to the buyer. The notification shall include the date of installation, the type of system, 1142 1143 the management plan, the legal description and the county Parcel Identification Number (PIN). 1144 Property transfers for developed properties not enrolled in the Oneida 1145 (2)1146 County Maintenance Program (Installed prior to July 1, 1980). An existing system inspection is required for all property transfers in 1147 (a) which a real estate transfer fee is collected and land divisions in 1148 1149 which the property contains a structure serviced by a POWTS. A 1150 system regulated by the mandatory maintenance program specified in 13.53(1) at the time of division or transfer may be precluded from 1151 this section at the discretion of the Zoning Administrator. 1152 An existing system inspection is not required if a letter from the host 1153 municipality is submitted to the Zoning Office stating a date by 1154 1155 which the structure is required to be connected to a sanitary sewer. To adequately determine whether an existing POWTS is failing 1156 (b) under conditions defined in s.145.245(4), Stats., an existing system 1157 1158 inspection must include: 1159 (1) An observation boring described by a certified soil tester extending 3' below the bottom of the absorption area which 1160 is large enough to clearly depict the presence of 1161 groundwater, bedrock, or seasonally saturated soils which 1162 1163 adversely affect the operation of the system. The Zoning Office may allow use of a previously filed soil test conducted 1164 1165 in an area near the failing system to verify soil conditions if deemed reliable by the Zoning Director. 1166 (2) A written evaluation of the general condition of the POWTS, 1167 1168 by a Master Plumber, Master Plumber-Restricted Service, POWTS Inspector, or Certified Soil Tester, or other 1169 person(s) authorized to do so by Comm. 83, Wisconsin 1170 1171 Administrative Code, which explains the presence and 1172 condition of all of the following components: (a) Inlet and outlet baffles. 1173 1174 (b) Vents, observation ports. (c) High water alarms. 1175 1176 (d) Treatment tanks including risers and covers. Absorption area including ponding, surface discharge. 1177 (e) 1178 Presence of any outfall pipe or connection to a drain (f)____ 1179 tile. 1180 (g) All applicable setbacks require an accurate site 1181 diagram if none exists on file at the Zoning Office. A report provided by a plumber, certified septage servicing 1182 (2) 1183 operator, certified POWTS inspector or other person(s)

1101		authorized to do as her Ocasia 00 Missianis Administration
1184		authorized to do so by Comm 83, Wisconsin Administrative
1185		Code, relative to the condition, capacities, and code
1186		compliance of any existing treatment or holding tanks;
1187	<u>(3)</u>	A report provided by a plumber, certified POWTS inspector,
1188		or other person(s) authorized to do so by Comm 83,
1189		Wisconsin Administrative Code, relative to the condition,
1190		capacities, and code compliance of all other system
1191		components;
1192	(4)	A plot plan prepared by a plumber, certified soil tester,
1193		certified POWTS inspector, or other person(s) authorized to
1194		do so by Comm 83, Wisconsin Administrative Code,
1195		including information specified in §13.31(3)(D)3, unless an
1196		accurate plot plan is on file with the department;
1197	(5)	An evaluation of the use and wastewater flow of the
1198		structure(s) served relative to the capacity of the existing
1199		POWTS.
1200	<u>(6)</u>	Verification that all domestic wastewater from the structure
1201		discharges into the POWTS.
1202		
1203	(7)	A county inspection to verify the results of the existing
1204	()	system inspection may be required. Any cost associated
1205		with the inspection including, but not limited to backhoe pits
1206		or pumping fees are the responsibility of the owner at the
1207		time of the inspection.
1208	(8)	Existing system inspection reports must be submitted to the
1209	(0)	Zoning Office on forms obtained from the Zoning Office
1210		within thirty days of completion of inspection.

1212 SUBCHAPTER 6

ADMINISTRATION AND ENFORCEMENT

1215 13.60 ADMINISTRATION.

The Issuing Agent shall be responsible for the administration of this ordinance. The Issuing Agent may delegate the responsibilities to personnel employed by the Oneida County Planning & Zoning Department and in the case of issuing abatement orders, to the County Health Department.

1222 13.61 <u>POWERS AND DUTIES</u>. 1223

In the administration of this ordinance, the Issuing Agent shall have the following powers and duties:

- (1) Delegate duties to and supervise clerical staff and other employees to assure full and complete compliance with this ordinance and related Wisconsin Statutes and the Administrative Code.
 - (2) Advise applicants concerning the provisions of this ordinance and assist them in preparing permit applications.
 - (3) Review and approve plans for private sewage systems for one and two family residences or as approved through agent status by the State.
 - (4) Issue sanitary permits and inspect properties for compliance with this ordinance and related Wisconsin Statutes and the Administrative Code.
- (5) Keep records of all sanitary permits issued, inspections made, work approved, and other official actions.
- (6) Report violations of this ordinance to the Corporation Counsel.
- 1239(7)Have access to any premises for the purpose of performing official duties1240between 8 a.m. and 8 p.m. or at other times set by mutual agreement1241between the property owner or his agent and the Issuing Agent or upon1242issuance of a special inspection warrant in accordance with §66.122,1243Wisconsin Statutes. Application for a sanitary permit is considered for the1244purposes of this ordinance as the owner's consent to enter the premises.
 - (8) Upon reasonable cause or question as to proper compliance, revoke or suspend any sanitary permit and issue cease and desist orders requiring the cessation of any construction, alteration or use of a building which is in violation of the provisions of this ordinance, until compliance with this ordinance or applicable Wisconsin Statutes and the Administrative Code is obtained.
 - (9) Issue and enforce orders to plumbers, pumpers certified septage servicing operators, property owners, their agents or contractors or the responsible party, to assure proper compliance with all provisions of this ordinance or delegate this authority to the County Health Department.
- 1255(10)Apply for and distribute grants obtained through the Wisconsin Fund Grant1256Program.

- 1258
1259(11) Assess the owner of a private sewage system a special assessment for
costs related to pumping of a septic or holding tank as determined to be
reasonable and necessary pursuant to Chapter 145, Wisconsin Statutes,
specifically including §145.20(4), Wisconsin Statutes, and in the same
manner that a village or town makes an assessment under §66.073,
Wisconsin Statutes. (Effective February 26, 2006, Resolution #9-2006)
 - (12) Enforce the provisions of § 145.11 Wisconsin Statutes advertising restrictions.
 - (13) Pursuant to Comm 83.20(2) nothing in this chapter shall limit the issuing agent's authority and power to inspect or require an evaluation of a POWTS, including an existing POWTS at times or for activity not covered in this section.
 - (12)(14) Perform other duties regarding private sewage systems as considered appropriate by the County or the State.

13.62 BOARD OF ADJUSTMENT.

Any person who alleges that there is an error in any order, requirement or decision made in the enforcement of this ordinance may appeal to the Oneida County Board of Adjustment as provided in Ch. 17 (Zoning Ordinance) of the General Code. Any appeal shall be made on forms furnished by the Zoning Department within 30 days of the date of that administrative action. Other substantiating evidence will be accepted.

1282 13.63 <u>VIOLATIONS AND PENALTIES</u>.

The provisions of this ordinance shall be administered, and enforced by and under the direction of the County Board of Supervisors.

(1) Investigation and Compliance; Notice of Violation

- (a) The Department is responsible for conducting the necessary inspection and investigation to insure compliance with this ordinance and, through field notes, photographs and other means, documenting the presence of violations.
- (b) If, upon investigation, the Department becomes aware of a violation of this ordinance, it shall immediately notify responsible parties and those potentially liable. Such notice shall include a demand that the condition that is alleged to constitute a violation be halted or remedied, and a statement that a complaint about the condition will be transmitted to the County corporation counsel for prosecution if remedial action has not occurred within 10 days. Responsible parties and those potentially liable shall include but not be limited to the landowner, tenants, and contractors.
- 1301(c) If the same or similar violation recurs within a two-year period, whether1302or not it involves the same property or the same or similar conduct by

$1303 \\ 1304 \\ 1305 \\ 1306 \\ 1307 \\ 1308 \\ 1309 \\ 1310 \\ 1311 \\ 1312 \\ 1313 \\ 1314 \\ 1315 \\ 1316 \\ 1317 \\ 1318 \\ 1319 \\ 1320 \\ 1321 \\ 1322 \\ 1323 \\ 1324 \\ 1324 \\ 1325 \\ 1324 \\ 1325 \\ $	(2)	 the owner, agent or contractor, notification of violation may be waived by the Department or corporation counsel and immediate legal action can be commenced to prosecute the violation. (d) The Department may issue a citation for any violation within the tenday notification period. Prosecution, Injunctions, Fines and Forfeitures, Imprisonment. (a) It shall be the duty of the corporation counsel to expeditiously review all violations of this ordinance reported by the Department or Committee and take action as appropriate. (b) A forfeiture of not less than \$25, nor more than \$250, plus costs, shall be imposed for each violation of this ordinance. (c) Upon failure to pay a forfeiture, the violator may be confined in the County jail until such forfeiture is paid, for a period not exceeding six months. (d) Each day a violation exists or continues shall be considered a separate and distinct offense. (e) As a substitute for or in addition to forfeiture actions, the corporation counsel may, on behalf of the County, seek enforcement of any and all parts of this ordinance by court actions seeking injunctional orders or restraining orders and/or by pursuing nuisance actions against the violator. (f) Compliance with this ordinance may be enforced pursuant to sec.
1325 1326 1327 1328 1329 1330 1331 1332 1333 1334 1335	(3)	 145.20, Wis. Stats. Violations of Permits Issued Under This Ordinance Violation of a permit issued under this ordinance shall be deemed a violation of this ordinance and shall constitute grounds for revocation of the permit, as well as fines and forfeitures and any other available remedies. Any person who has applied for and received a permit and begins work on the project authorized by the permit acknowledges that they have read, understand, and agree to follow all conditions and requirements of the permit.
1336 1337 1338 1339 1340 1341 1342 1343 1344 1345 1346 1347 1348	(4)	Revocation of Permits The Committee shall retain continuing jurisdiction over all activities authorized by the permit for the purpose of assuring compliance with this ordinance and other ordinances and the terms of the permit. Such authority shall be in addition to the enforcement authority of the Zoning Administrator. Upon written complaint by any citizen, the Zoning Administrator, <u>or</u> any other official, the Committee shall hold a public hearing to consider amending, suspending or revoking the permit. Notice of the hearing and alleged violation shall be served upon the property owner and permit holder either in person or via certified mail to the address provided on the permit application form or otherwise provided to

1349 1350		the Department a minimum of 72 hours prior to conducting the public hearing. The notice shall contain the date, time and place of the hearing,
1351		a description of the property, a description of the activity authorized by the
1352		permit, and a statement of the alleged violation(s). Notice shall also be
1353		published as a class 2 notice. Any person may appear at such hearing
1354		and testify in person or be represented by an agent or attorney. The
1355		Committee at its sole discretion may hold additional public hearings. If the
1356 1357		Committee finds after the hearing that the permit holder is not in
1357		compliance with the terms of the permit, it may amend, suspend or revoke
1358		the permit. The decision of the Committee shall be furnished to the permit
		holder in writing, stating the reasons therefore.
1360		Demait leaved in Mieletien of This Ordinerses
1361	(5)	Permit Issued in Violation of This Ordinance
1362		
1363		A permit issued in violation of this ordinance, the Wisconsin Administrative
1364		Code or the Wisconsin Statutes, gives the permit holder no vested right to
1365		continue the activity authorized by the permit, and the permit is considered
1366		voidable.
1367		
1368	(6)	Any construction which is in violation of this ordinance shall cease upon
1369		written orders from the Issuing Agent or the placement of a notification of
1370		violation at the site. A notification of violation shall state the following:
1371		(a) POWTS Inspector's name and telephone number.
1372		(b) Time and date of violation notice.
1373		(c) List of code section within Chapter 13 or Wisconsin Administrative
1374		Code chapters Comm 82 through Comm 85 that was violated.
1375		
1376	(7)	All construction shall remain stopped until the order is released by the
1377		Issuing Agent.
1378		
1379	•	Clerk shall, within seven (7) days after adoption of Ordinance Amendment
1380	•	the Oneida County Board of Supervisors, cause a certified copy thereof to
