

RESOLUTION # 54-2017

Resolution offered by the Supervisors of the Public Safety Committee

Resolved by the Board of Supervisors of Oneida County, Wisconsin:

WHEREAS, currently Oneida County has a policy of free access to the Oneida County Courthouse allowing the public access through multiple doors; and

WHEREAS, the multiple access points to the courthouse are currently not screened by deputies or x-ray machines for contraband or weapons; and

WHEREAS, National, State and Local governmental units are currently making efforts to provide better security at courthouses; and

WHEREAS, the Public Safety Committee believes that for the safety and security of not only the employees at the Courthouse but also the public who visit the courthouse, a single, secure entrance, staffed by a Sheriff Deputy, for the public entering the Courthouse is necessary; and

WHEREAS, in order to provide the necessary staff for a single secure entrance the Sheriff Department will need to increase its staff by one deputy; and

WHEREAS, the United States Department of Justice, through the Community Oriented Policing Services (hereinafter "COPS") program has grant funds that can be applied for to cover some of the initial costs of the new position; and

WHEREAS, the Public Safety Committee would recommend that the grant funds through the COPS program be applied for, however, if a grant is not received the Public Safety Committee believes that the single point of access should still be instituted.

NOW, THEREFORE, BE IT RESOLVED, by the Oneida County Board of Supervisors that access to the Oneida County Courthouse be limited to one single access for the public irrespective of the receipt of grant funds; and

BE IT FURTHER RESOLVED, that the Sheriff Office is authorized to apply for a COPS grant to be used for staffing of the single public access to the Courthouse; and

BE IT FURTHER RESOLVED, that this matter is referred to the Buildings and Grounds Committee for implementation of a single monitored access to the Oneida County Courthouse.
