

PUBLIC NOTICE
Invitation for Sealed Bids on Timber Stumpage

Sealed bids will be accepted by the Oneida County Forestry Department at the Oneida County Courthouse, Second Floor, Room B206, Rhinelander, WI 54501 **UNTIL NOON ON THURSDAY, October 29, 2026**. A timber sale prospectus and bid forms may be obtained by contacting the Forestry Office at the above address or by telephone at (715) 369-6140. Bid packets can be viewed online at <http://www.oneidacountywi.gov>

Oneida County Forest is third party Certified. For information regarding certification, please contact the Forestry Office.

There are 13 tracts of timber for sale in the Towns of Cassian, Enterprise, Little Rice, Lynne and Woodboro, comprising approximately 860 acres. Total volume estimates are as follows:

Aspen	8,960 Tons	Basswood Logs	168 MBF
Balsam Fir	660 Tons	Hard Maple Logs	128 MBF
Basswood	1,100 Tons	Mixed Hwd Logs	205 MBF
Mixed Hwd	17,265 Tons	Red Oak Logs	116 MBF
Oak, Red	2,150 Tons		
Pine, Red	3,150 Tons		

The outside of the envelope must show the tract number and contractor name. Bids must include:

1. Tract number.
2. List of species to be cut and estimated volume.
3. Bid prices per Ton or MBF for each species and product.
4. Signature and address of each bidder.
5. A refundable bid bond in the form of check or cash must accompany each bid for the amount of 5% of the total bid value.

Successful bidders must provide proof of training to the State SFI standards and a completed Wisconsin Sales and Use Tax Exemption Certificate (form S-211) to the county at the time of contract signing. Minimum required deposit is 25% of successful bid value for each tract. The Forestry, Land & Recreation Committee reserves the right to reject any or all bids and/or select the bid most advantageous to Oneida County.

Bids will be publicly opened Thursday, October 29, 2026 at 1:00 p.m. in Committee Room #1, 2nd Floor, Oneida County Courthouse, Rhinelander, WI. Successful bids will be awarded at the regularly scheduled Oneida County Forestry, Land & Recreation Committee meeting at 8:00 a.m. on Tuesday, November 3, 2026 in the Oneida County Board Room, 2nd floor, Oneida County Courthouse Rhinelander, WI. Bid results will be posted online at www.oneidacountywi.gov/departments/fr/timber-sales/)

NOTICE FOR SEALED BIDS FOR STUMPAGE ON
ONEIDA COUNTY FOREST LANDS

BID DEADLINE: October 29, 2026 at NOON

Sealed bids will be received by the Oneida County Forestry Committee for the purchase of stumpage on the attached maps of Oneida County Forest Land, in accordance with the conditions set forth by the Committee. Additional information about the cutting areas is available from the Oneida County Forestry Office, PO Box 400, Rhinelander, WI 54501.

A REFUNDABLE BID BOND (CASH OR CHECK), IN THE AMOUNT OF 5% OF THE TOTAL BID VALUE, MUST ACCOMPANY EACH BID.

If your bid is NOT SELECTED, the bid bond will be returned. If your bid is ACCEPTED, your bid bond will be held until the contract is signed on the terms below. If the contract is not signed within the required two (2) week period, your bid bond will be FORFEITED.

12.5 % will be added to the scale of all hand peeled wood. 16% will be added to the scale of all machine peeled wood.

SCALE PAYMENT WILL BE BY THE LOCK BOX HAUL PERMIT SYSTEM.

Irrevocable Letters of Credit and bonds will be considered on an individual basis in lieu of cash deposits.

Letters of Credit must have an expiration date one year past the contract end date.

Certificates of Insurance will be provided by the successful bidder at the signing of the contract, proving adequate liability with the limits of \$1,000,000 bodily injury and \$1,000,000 property damage and Worker's Compensation at statutory limits.

All successful bidders must provide proof of training to the State SFI standards and a completed Wisconsin Sales and Use Tax Exemption Certificate (formS-211) showing tax exemption status at contract signing.

Successful bidders must sign contracts and pay balance of deposit within two weeks of receipt. Contract expiration dates vary from one to four years and may be renewed, with increased rates, at the discretion of the Committee. Total contract period shall be no more than four years from date issued. Upon signing of the contract, a deposit of 25% of the total successful bid value will be required. The minimum rates only apply to jobs sold by competitive bidding.

It is the bidder's responsibility to contact individual towns to determine if there are town ordinances relating to logging operations on town roads. Town contact information can be found on the Oneida County website (www.oneidacountywi.gov) under "Municipalities" or by contacting the Oneida County Clerk at 715-369-6144.

PLEASE NOTE: Oneida County Forest Roads (Bowman Rd, John's Memorial Dr, Zimmer Rd, Shingle Mill Rd, Camp Six Rd, South Exit Rd, Bass Lake Rd, Cruisers Rd and Rozell Rd) *are not maintained in the winter by the County*. It is the responsibility of the Contractor to arrange snow plowing on these roads.

ALL BIDS MUST MEET MINIMUM BID PRICE PER SPECIES AS STATED ON SALE MAPS.

Note: Log specifications - Small end: 10” diameter inside the bark for hardwood and 9” diameter inside the bark for softwoods and capable of making a #3 Grade log. All logs shall be scaled by the County prior to hauling unless otherwise specified.

NOTE: Bids will be publicly opened on Thursday, October 29, 2026 at 1:00 p.m. in Committee Room #1, 2nd Floor, Oneida County Courthouse, Rhinelander, WI. Successful bidders will be announced Tuesday, November 3, 2026 at the regularly scheduled Forestry Committee meeting, scheduled to begin at 8:00 a.m. in the County Board Room, 2nd Floor, Oneida County Courthouse, Rhinelander, WI. Bid results will be posted online at www.oneidacountywi.gov/departments/fr/timber-sales/)

BID DEADLINE: **Thursday, October 29, 2026 at NOON**; Oneida County Forestry Office; PO Box 400, Court House, 2nd Floor, Room B206, Rhinelander, WI 54501.

If you would like to be removed from our stumpage mailing list, complete the information below and return it to:

☐ NO, I do not wish to remain on the stumpage mailing list. Please remove my name.

NAME: _____

MAILING ADDRESS: _____

CITY / STATE / ZIP: _____

ONEIDA COUNTY FORESTRY DEPARTMENT
TIMBER SALE BID FORM

Send completed bids and bid bonds to: Oneida County Forestry, Land & Outdoor Recreation Committee, PO Box 400, Rhinelander, WI 54501

All sales are subject to the following conditions:

1. Only the tree species specified on the timber sale prospectus / map are to be cut. Utilization specifications designated for the sale area must be adhered to.
2. Contractor must comply with Slash Disposal Law, Sec.26.12(b), Wisconsin Statutes.
3. A Refundable Bid Bond must accompany each bid. Bid bond will be of 5% of the total bid value, in the form of a check or cash. A Performance Bond, in the form of cash, check, or letter of credit, equaling 25% of the total bid value is due upon signing of the contract.
4. No forest products shall be removed until scaled and marked by a representative of the Forestry Department and paid for unless otherwise specified in the contract scaling instructions. **NOTE: Log specifications - Small end: 10" diameter inside the bark for hardwood and 9" inside the bark for softwoods and capable of making a #3 grade log.**
5. All timber, marked or otherwise designated by the contract to be cut, shall be cut progressively and to the satisfaction of the representative of the Forestry Department, whether or not the quantity of such timber is more or less than the estimated comprising the operational specifications.
6. Undesignated trees cut or injured through carelessness and designated trees left through carelessness shall be paid for at double the stumpage rate. Timber wasted in tops and stumps shall be paid for at the stumpage rate.
7. Purchaser agrees to assume all liability for any damage or injury to persons or property, real or personal, resulting from Purchaser's operations under this contract and will hold Oneida County harmless from the same. The contractor shall furnish certification to the Oneida County Forestry Department that he / she is adequately insured with a reliable company so that Oneida County shall not be held liable in case of injury or death during and after the contract period. The limits of liability shall be \$1,000,000.00 bodily injury and \$1,000,000.00 property damage. The contractor shall also furnish proof of Workers Compensation Insurance at statutory limits. In the event the Purchaser's insurance is terminated for any reason, he / she shall immediately cease all activities otherwise permitted by the contract and provide written notice to the Forestry Department.
8. Roadways and trails will be kept free from brush, logs, pulp and waste material resulting from the operation. The Purchaser must abide by all rules regarding the use of roads, trails, and fire lanes. Additional constructed roads or trails must meet the approval of the Forestry Department.
9. Contractors will be required to furnish the Forestry Department with proof of SFI Logger Certification and a completed Wisconsin Sales and Use Tax Exemption Certificate (form S-211) showing tax exemption status prior to signing contracts.

TURN OVER FOR SIDE 2

10. If, in the opinion of the Forestry Department, it is deemed that Contract provision are not being adhered to, all logging operations will be suspended. Operations may not be resumed without notification of the Forestry Department.
11. The Forestry Committee shall be the sole judge as to satisfactory compliance of contract conditions.
12. Timber sale contracts cannot be assigned in whole or in part without the consent of the Forestry Committee.
13. Any or all bids may be rejected by the Committee.
14. ALL BIDS PER SPECIES MUST MEET MINIMUM BID PRICE AS STATED ON PROSPECTUS.
15. Sample copies of County timber sale contracts are available for review at the Forestry Office in the Oneida County Court House.
16. All contracts will expire after the term indicated on the sale prospectus / map. One year extensions may be granted at the discretion of the Forestry, Land & Recreation Committee. Stumpage rates will be increased according to the following schedule:

One Year Contract:	1st Extension 5% rate increase
	2nd Extension 10% rate increase
	3rd Extension 15% rate increase
Two Year Contract:	1st Extension 10% rate increase
	2nd Extension 15% rate increase
Three Year Contract:	1st Extension 15% rate increase (No additional extensions)

Total contract period, plus extensions, shall be no more than four years from date issued.

NOTE: The number of bids received per tract will not be revealed prior to bid deadline.

NOTE: Each tract that is bid on will be placed in a sealed envelope marked "Sealed Bid--Tract #__" and have the contractors name and address plainly printed on the front of the envelope.

BIDDER'S NAME, ADDRESS AND TRACT NUMBER MUST BE INCLUDED ON THE OUTSIDE OF THE ENVELOPE.

I submit the following bid on TRACT # _____.

Utilization Specifications being Bid (**circle one**) 4" Top Whole Tree

Note: Make sure to use the volume estimates corresponding to the utilization specifications being bid. Bids must be per ton unless minimum bid is listed only by mbf or cords.

SPECIES	EST. VOLUME	BID/UNIT	SPECIES TOTAL
TOTAL BID			\$
Bid Deposit (5% of Bid Total) – Include with Bid:			\$
Performance Bond (25% of Bid Total) – Due at Contract Signing:			\$

I am aware that 12.5% will be added to the scale of hand-peeled pulpwood and 16% will be added to the scale of machine-peeled pulpwood. I am also aware the schedule of payment for all wood removed will be specified by the Committee on each individual contract.

Date Completed: _____

Contract Length: 3 years

Harvest Regulations:

1. **In the overstory removal area:** harvest all aspen, balsam fir, and ironwood 1" DBH and larger and all other trees greater than 8" DBH except for trees marked with green paint and spruce, hemlock, and pine. Dead ash was not cruised but may be utilized if sound. EXTREME CAUTION must be used to protect existing hardwood regeneration. Do not skid through, drop trees into, or drag tops through concentrated areas of hardwood or aspen saplings. If regeneration is not protected, the contractor may be required to directionally fell trees into harvester path, limb/top in same path, with skidder following harvester path. Excessive damage to regen may result in further equipment restrictions (such as no hot saws or fixed head harvesters only), or contract cancellation. Slash must be evenly distributed across sale area (no large piles). NO WHOLE TREE OR POLE LENGTH SKIDDING. Utilization on all species is a 100" stick to a 4" top. No whole tree harvesting is allowed. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard.

2. **Seasonal restrictions:** Harvest operations and roadwork are limited to July 15 through March 15. Harvesting/skidding in the harvest area is permitted only under dry or frozen-ground conditions. Further seasonal restrictions may be imposed if excessive rutting occurs in the woods, the roads, or if excessive damage to residual trees occurs.

3. **Roads and access:** No new roads are permitted. Existing woods roads may be opened and improved and landing sites may be constructed with prior approval of the County. Access roads connecting to Shingle Mill, Stefanez Rd, or the ATV/snowmobile trail must be blocked with berms/rocks or a gate at the end of each harvest season and at the end of the sale if previously blocked. All trails must be returned to their original condition or better at the end of sale operations. Bond money will not be returned until all road/landing rehabilitation is satisfactorily complete. Decking along Stefanez Rd is only allowed with permission from the Town of Enterprise. Decking along Shingle Mill Rd is only allowed with permission from Oneida County Forestry department. Signs will be needed on Shingle Mill Rd, Stefanez Rd, and to the ATV/Snowmobile trail notify users of logging operations occurring.

4. No equipment is allowed within 15' of any wetland unless the ground is dry or frozen. Minimize dropping trees outside of the red or blue paint line and/or into wetland areas. Any trees felled outside the harvest area must be pulled back into the sale area before being processed. No slash is to be left in any wetlands within or adjacent to the sale.

5. If Decking along the ATV/Snowmobile trail, decks must be placed far enough off the trail so as not to pose a safety hazard. If hauling during snowmobile season, the trail must remain snow-covered to the extent possible. Any logging debris must be cleared from the trail on a daily basis.

6. Slash must be pulled back 10 ft from the edge of all trails/roads and cut to less than 2 ft high within 20 ft of the trails/roads. Stefanez Rd must be repaired to the satisfaction of the town if it is used for decking/hauling. Shingle Mill Rd and the ATV/Snowmobile trail must be repaired to the satisfaction of the county if either is used for decking/hauling.

7. All items listed in the Oneida County Timber Sale Contract apply. All applicable BMPs will be followed.

Harvest Regulations:

1. **Marked Hardwood Area:** Harvest all aspen, balsam fir, and ironwood 1" or larger, and all trees marked with orange paint, leaving orange visible on the stump. Balsam fir greater than 1" DBH must be cut and scattered across the sale area.

Aspen Coppice Areas: Harvest all aspen, balsam fir, white birch, and mixed hardwood 1" DBH and larger. DO NOT CUT any oak, hemlock, spruce, pine, or trees marked with yellow paint. Balsam fir greater than 1" DBH must be cut and scattered across the sale area.

EXTREME CAUTION must be used to protect existing hardwood regeneration. Excessive damage to regen may result in further equipment restrictions (such as no hot saws or fixed head harvesters only), or contract cancellation. Slash must be evenly distributed across sale area (no large piles). NO WHOLE TREE OR POLE LENGTH SKIDDING. If a cable skidder is used on steep slopes, trees must be topped prior to skidding. Utilization on all species is a 100" stick to a 4" top or whole tree. If harvesting whole tree, every 10th tree top above the standard 4" diameter must be left evenly scattered in the woods. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard.

2. **Seasonal Restrictions:** Dry or frozen ground conditions will be required for harvesting and hauling activities. Harvesting/skidding in the harvest area is limited to July 15 through the following spring break-up (approx March 15). Further seasonal restrictions may be imposed if excessive rutting occurs in the woods, the roads, or if excessive damage to residual trees occurs.

3. **Roads and Access:** No new access roads are permitted. Existing roads may be opened and improved and landing sites may be constructed with prior approval of the County. All roads and trails used must be returned to their original condition or better at the end of sale operations. Bond money will not be returned until all road/landing rehabilitation is satisfactorily complete.

4. No equipment is allowed within 15 ft of the wetland areas within or adjacent to the sale unless the ground is dry or frozen. No slash is to be left in any wetlands within or adjacent to the sale.

5. There is a survey monument in the northwest corner of the sale area. Do not disturb the monument or any blue painted trees.

6. Slash must be pulled back 10 ft from the edge of all trails/roads and cut to less than 2 ft high within 20 ft of the trails/roads.

7. All items listed in the Oneida County Timber Sale Contract apply. All applicable BMPs will be followed.

MAP ON FRONT PAGE

4" Top	Est. Volume	Min. Bid
Aspen	4450 Tons	\$11.80/Ton
*Red Oak	1350 Tons	\$15.30/Ton
**MX Hardwood	1000 Tons	\$8.60/Ton
Whole Tree	Est. Volume	Min. Bid
Aspen	6000 Tons	\$8.75/Ton
*Red Oak	1800 Tons	\$11.48/Ton
**MX Hardwood	1750 Tons	\$4.91/Ton
*Red Oak is COMINGLED product and contains 28 MBF of logs. **MX Hardwood Pulp contains approximately 4 MBF of MH logs and 5 MBF of MR logs 47%-MR, 30%-MH, 12%-BW, 10%-BA, and 1%-AW.		

Harvest Regulations:

- 1. Aspen coppice:** DO NOT CUT any conifer, black cherry, trees marked with green paint, or trees marked with red and yellow Trail Marker Blazes. Harvest all other trees 1" DBH and larger. The sale area boundaries are either ski trails or RED PAINTED TREES. The trees with red paint on them MUST BE CUT (except those with red or yellow trail marker blazes). Utilization on all species is a 100" stick to a 4" top or whole tree. If harvesting whole tree, every 10th tree top above the 4" diameter must be left evenly scattered in the harvest area. Any den or nest tree shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard. Harvesting and trail repair in each piece must be completed before moving into another piece.
- 2. Seasonal restrictions:** Harvesting is only allowed from July 15th to November 15th due to oak wilt restrictions and ski trail concerns. Logging operations will require dry or frozen ground.
- 3. Roads and access:** Bulldozing or any roadwork may not be done prior to 2 weeks before the sale becomes active. No new roads are permitted. Existing roads may be opened and improved and landing sites may be constructed with prior approval of the County. The main access trail (haul road) is a graveled ski/bike trail and must be used when feasible. This trail must be kept open and free of debris. All trails and roads must be returned to their original condition or better at the end of each harvest season and at the end of the sale. Bond money will not be returned until all road/trail/landing rehabilitation is satisfactorily complete. Gates are to remain closed when no one is on site. The graveled haul road (highlighted green on map) must be used over the other ski trails for hauling when feasible.
- Only forwarders will be allowed on this sale. If trees are whole tree harvested, traditional ground skidders (cable or grapple) will not be allowed due to potential excess damage to the recreational trails.
- 5. A minimum of three days notice prior to starting operations must be given to the county.** EXTREME CARE must be taken to protect the ski/bike trails. The trails must be cleared of all debris before moving into the next piece and at the end of the sale. Skidding across the bike trails must be kept to a minimum. No ruts shall be left on the trails. The bike trails within the sale areas will be closed during sale operations. Trees were leave tree marked with green paint along the single track trails to aid the contractor in identifying and protecting the trails. No equipment or logging operations are allowed in Perch Lake Park or the Washburn Lake Rd parking lot.
- Do not disturb any survey monument or any blue painted tress. Any trees felled across the BPL must be pulled back onto county property before being processed. No slash is to be left in any wetland within or adjacent to the sale. No equipment is allowed within 15' of any wetlands unless the ground is dry.
- Slash along the ski/bike trails must be pulled back a minimum of 10' from the edge of the trails and cut to lay less than 2' within 20' of the trails. Stumps must be cut lower than 12 inches along the ski/bike trails.
- All items listed in the Oneida County Timber Sale Contract apply. All Applicable BMP's will be followed. Sale Est. JF/JK 07/26

*MX Hardwood Pulp contains approximately 60% MR, 32% MH, 4% AW, 4% BW. **Mx Hardwood Logs contains approximately 79% AW, 14% MR, 6% MH, and 1% BW.		

Harvest Regulations:

1. **Marked Hardwood Area:** Harvest all aspen, elm, ironwood and balsam fir 1" DBH or larger and all trees marked with orange paint, leaving orange visible on the stump. Within the purple marked gaps, harvest all trees 1" DBH or larger and all purple painted trees. Do not cut oak. EXTREME CAUTION must be used to protect existing hardwood regeneration. Excessive damage to regen may result in further equipment restrictions (such as no hot saws or fixed head harvesters only) or contract cancellation.

Aspen Area: Harvest all aspen, fir, maple, white birch, ash, elm, and ironwood 1" DBH and larger. Do not cut any other species.

In both areas all balsam fir 1" DBH and larger must be cut, lopped, and scattered across the sale area. Slash must be evenly distributed across sale area (no large piles). Utilization on all species is a 100" stick to a 4" top or whole tree. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard.

2. **Seasonal Restrictions:** EXTREME dry or FROZEN conditions will be required for harvesting and hauling activities. Harvesting/skidding in the harvest area is limited to July 15 through the following spring break-up (approx March 15). Further seasonal restrictions may be imposed if excessive rutting occurs in the woods, the roads, or if excessive damage to residual trees occurs.

3. **Roads and Access:** Existing roads may be opened and improved and landing sites may be constructed with prior approval of the County. All trails must be returned to their original condition or better at the end of sale operations. Bond money will not be returned until all road/trail/landing rehabilitation is satisfactorily complete.

4. The main access road from North Turcott Rd has a rock ford on Thunder Creek. The ford may have timber mats or poles placed across it during frozen ground conditions. The temporary crossing materials (timber mats, poles, or pipes) must be placed between May 15 and Sept 15 due to the stream being classified as a trout stream. Timber mats may be left in place for the duration of the sale, but any pipes or poles placed in the stream must be removed by March 15 to allow for fish passage.

5. No equipment is allowed within 15 ft of the wetland areas within or adjacent to the sale unless the ground is dry or frozen. No slash is to be left in any wetlands within or adjacent to the sale.

6. Slash must be pulled back 10 ft from the edge of all trails/roads and cut to less than 2 ft high within 20 ft of the trails/roads.

7. No equipment is allowed across the RED PAINT LINE marking the Price County/Chequamegon-Nicolet NF boundary. Any trees felled across the RPL into CNNF lands must be pulled back onto county property before being processed. There is a survey monument in the NW corner of the sale area. Do not cut the red painted trees or the survey monuments.

Contract Length: 3 years

Harvest Regulations

- Harvest Area (Aspen Coppice):** Harvest balsam fir with 1 or more 100" sticks to a 4" top and all other trees 1" DBH and larger. Do not cut oak, white pine, hemlock, cherry, yellow birch, trees marked with red paint, or any trees within the Retention Areas. Slash must be evenly distributed across sale area (no large piles). Utilization is a 100" stick to a 4" top or whole tree. If harvesting whole tree, every 10th tree top above the 4" diameter must be left evenly scattered in the harvest area. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard.
- Seasonal Restrictions:** Harvesting allowed July 16 - April 14th due to oak wilt. Dry or frozen ground conditions are required for harvesting and hauling activities. Further seasonal restrictions may be imposed if excessive rutting occurs in the woods or on the roads or if excessive damage to the residual trees occurs.
- Roads and Access:** No new roads permitted. Decking along Stefanez Rd only permitted with permission from Town. Existing woods roads may be opened and improved, and landing sites may be constructed with prior approval of the County. Access roads and trails must be bermed/rocked or gated at the end of each harvest season and at the end of the sale if previously blocked. All trails and roads must be returned to their original condition or better at the end of each harvest season and at the end of the sale. Bond money will not be returned until all road/landing rehabilitation is complete to the satisfaction of the County.
- No slash is to be left in any wetlands within or adjacent to the sale area. Trees dropped into wetlands must be pulled back out before being limbed and topped. Slash must be pulled back 10' from all trails/roads and cut to lay less than 2' high within 20' of the trails/roads. Do not fall any trees onto the adjacent private lands, delineated by blue paint lines. Do not disturb survey monuments or witness trees painted blue.
- No equipment is allowed in the wetland areas within or adjacent to the sale unless the ground is dry or frozen. Do not operate equipment within 15' of any wetlands unless the ground is dry or frozen.
- All items listed in the Oneida County Timber Sale Contract apply. All applicable BMP's will be followed.

		Woods Trail/Road

HARVEST REGULATIONS:

1. **Harvest Area:** Red Pine clearcut and road corridor clearing. Cut all trees greater than 1" DBH, including a 25' corridor along both sides of John's Memorial Drive and Camp Six Road. Balsam fir may be left in the woods, but must be cut, lopped, and scattered. Average DBH of red pine north of Little Pine Creek is 17", south of creek is 14". Dead snags must be left uncut unless they pose a hazard to the harvesting operation. If cut, leave dead snags where they fall. Harvest boundary is designated with red paint, except along roadway corridors. Beginning and end points of road corridor harvest are marked with red paint, but corridor is not designated along the roads. Do not harvest within 50 feet of Little Pine Creek. Use caution along the western edge of the harvest boundary north of the creek where old barbed wire fencing exists.

No equipment is permitted within the green-marked area. Only harvest trees from this area if they can be reached from outside the green-marked boundary and felled/limbed/topped outside the boundary.

2. **Seasonal Restrictions:** Harvest operations are only permitted from July 16 to April 14 when ground is sufficiently dry or frozen.

3. **Road & Access:** Sale is accessed from John's Memorial Drive and Camp Six Road using existing woods trails. Signage will be needed along roads to notify users of logging operations. No new roads are allowed to be constructed. Existing trails may be opened/improved and landing sites may be constructed with prior approval of the County. Use of trails, roads, and parking areas within the Gillette/Wickham Day Use Area west of the sale will not be permitted. Camp Six Road becomes a snowmobile trail in the winter months. If harvesting during snowmobile season, trail must be kept snow-covered to the extent possible. Decking is permitted along John's Memorial Drive and Camp Six Roads only when sufficiently dry or frozen. If decking along roads, decks must be placed far enough off the side of the roads so as to not pose a hazard to users, and roads must be kept clear of logging debris on a daily basis. Decking is permitted in the old borrow pit and wildlife opening. Roads, trails, and landings must be returned to original condition or better, cleared of debris, and leveled upon completion of harvest operations. In the wildlife opening, any topsoil removed must be replaced and leveled to allow for future maintenance. Any berms/rocks that were moved must be replaced. Bond money will not be returned until all road and landing work is complete to the satisfaction of the County. All roadwork (including grading, plowing, ditching, or graveling) will be the responsibility of the contractor and will be administered and monitored by County Forest personnel.

4. Utilization is 100" stick to a 4" top or whole tree. If harvesting whole tree, every 10th tree top above the standard 4" diameter must be left in the woods where the tree was felled.

5. Any trees dropped into adjacent wetland areas must be pulled back out before being limbed/topped. Equipment operations within wetland areas are prohibited and only allowed within 15' of wetlands when ground is dry or frozen. All other slash must be pulled back 10' from the edge of all trails/roads and cut to less than 2' high within 20' of the trails/roads. Stump height must not exceed 10" within sale area, 6" within road corridor.

6. All items listed in the Oneida County Timber Sale Contract apply. All applicable BMPs will be followed.

Contract No.: _____
Contractor: _____
Date Sold: _____
Date Completed: _____
Contract Length: 3 years

Harvest Regulations:

1. **Marked Hardwood Area (30 acres):** Cut all trees marked with orange paint, all ash greater than 5" DBH and all ironwood greater than 1" DBH. Do not cut aspen or unmarked white birch. Minimize damage to regeneration - do not drop trees into or skid through concentrated pockets of advanced regeneration. Dead ash was not cruised but may be utilized if sound. Excessive damage to regen may result in further equipment restrictions (such as no hot saws or fixed head harvesters only), or contract cancellation. Slash must be evenly distributed across sale area (no large piles). NO WHOLE TREE OR POLE LENGTH SKIDDING. Utilization on all species is a 100" stick to a 4" top. No whole tree harvesting is allowed. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard. Harvest boundary is designated by with red paint.

Right of Way clearing (2 acres): Except for oak and pine greater than 18" DBH, harvest all trees greater than 1" DBH within a 25-foot corridor from gravel road edge along both sides of Shingle Mill Rd. Beginning and end points of the corridor are marked with red paint, but the corridor is not designated along the road. Stump heights must not exceed 6" tall in corridor.

2. **Seasonal restrictions:** Harvest operations may only occur between December 2 and spring breakup (approximately March 15). Dry or frozen ground conditions will be required for harvesting and hauling activities. All decked wood must be removed from the site and hauled by spring break up. Further seasonal restrictions may be imposed if excessive rutting occurs in the woods, the roads, or if excessive damage to residual trees occurs.

3. **Roads and access:** Sale is accessed from Shingle Mill Rd and the campground access road using existing woods roads. No new roads are allowed to be constructed. Use of the ATV trails is prohibited. Existing roads may be opened and improved and landing sites may be constructed with prior approval of the County. Decking is permitted along Shingle Mill Rd only when sufficiently dry or frozen. Decking in the firewood storage area is permitted. Campground access road may ONLY be used during harvest operations when frozen, and all logging debris (including bark) must be removed from the graveled areas within the campground daily. No felling of trees onto campsite pads. Any damage to campground infrastructure will result in immediate suspension of operations until repairs are done to the satisfaction of the County. Roads, trails, and landings must be returned to original condition or better, cleared of debris, and leveled upon completion of forest operations and prior to campground opening in mid-May. Any berms/rocks must be replaced. Bond money will not be returned until all road and landing work is completed to the satisfaction of the County. All roadwork will be the responsibility of the contractor and will be administered and monitored by County Forest personnel.

4. All slash must be pulled back 25' from campsite pads, campground road, and ATV trail and must be lopped and scattered no higher than 2' off the ground. Slash must be pulled back 10 ft from the edge of Shingle Mill Rd and cut to less than 2 ft high within 20 ft of the road.

5. Avoid damaging the Blue Campground Boundary signs on yellow posts that are spaced approximately 100' apart around the outside edge of the campground.

6. No equipment is allowed within 15 ft of the wetland areas within or adjacent to the sale unless the ground is dry or frozen. No slash is to be left in any wetlands within or adjacent to the sale.

7. Gates must be closed at the end of each day and when no one is working on site.

8. As part of this contract, the Contractor shall deliver 10 cords of hardwood pulp for firewood to the firewood storage area just east of the campground entrance.

9. All items listed in the Oneida County Timber Sale Contract apply. All applicable BMPs will be followed. Sale Est. PF/AJ/UWSP 5/16 Updated 9/26 by JN/JF

(30 ac marked red pine)
Legal Desc T37N R7E Sec 25 SE.

Harvest Regulations:

1. **Marked Pine Thinning:** 4th thinning, PR has 15" average DBH. Harvest all pine marked with orange paint, leaving orange visible on the stump. Harvest boundaries are designated by natural stand boundaries. Utilization is 100" stick to a 4" top. No whole tree utilization.

2. **Seasonal Restrictions:** Harvesting operations are allowed year round. Dry or frozen ground conditions are required for logging operations. Further seasonal restrictions may be imposed if excessive rutting occurs in the woods or on the roads or if excessive damage to the residual trees occurs.

3. **Roads and Access:** No new roads are permitted. Existing roads may be opened and improved and landing sites may be constructed with prior approval of the County. All trails and roads must be returned to their original condition or better at the end of sale. Bond money will not be returned until all road/trail/landing rehabilitation is satisfactorily complete. If decking along the Snowmobile/bike trail, decks must be placed far enough off the side of the trail so as not to pose a hazard to users and the trail must be kept clear of logging debris on a daily basis. If harvesting during snowmobile season, the trail must be kept snow-covered to the extent possible. All logging roads connecting to Sheep Ranch Rd or the Snowmobile/bike trail must be bermed/rocked at the end of each harvest season and at the end of the sale if currently blocked. Gates are to remain closed during non-snowmobile season when no one is on site. Caution signs must be placed on the trail and on Sheep Ranch Rd.

4. No slash is to be left in any wetland within or adjacent to the sale. No equipment is allowed within 15' of any wetlands unless the ground is dry or frozen.

5. All pine cut between May 1 and September 1 must be removed within 2 weeks from the time of harvest. No whole tree skidding allowed, maximum of 17' pole length, utility poles permitted on a case by case basis. Damage to residual trees will not be tolerated.

6. Slash must be pulled back a minimum of 10' from the edge of all trails/roads and cut to lay less than 2' high within 20' of all trails/roads.

7. There is a game opening on the east end of the sale. It may be used for decking, but needs to have all topsoil replaced (if removed) and bladed smooth at the end of the sale to allow for future maintenance.

*MX Hardwood	2550 Tons	\$7.80/Ton
Basswood	60 Tons	\$1.50/Ton
**Mx Hwd Logs:	41 MBF	\$116.00/MBF
*MX Hardwood Pulp contains approximately 42% MH, 31% AW, 25% MR, and 2% Aspen.		
**Mx Hardwood Logs contains approximately 50% AW, 29% MR, and 21% MH.		

Harvest Regulations:

1. **Marked Hardwood Area:** Harvest all balsam fir and ironwood 1" or larger, all ash and aspen 6" DBH and larger, and all trees marked with orange paint, leaving orange visible on the stump. Balsam fir must be cut, lopped, and scattered across the sale area. EXTREME CAUTION must be used to protect existing hardwood regeneration. Excessive damage to regen may result in further equipment restrictions (such as no hot saws or fixed head harvesters only), or contract cancelation. Slash must be evenly distributed across sale area (no large piles). Utilization on all species is a 100" stick to a 4" top. No whole tree harvesting is allowed. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard.

2. **Seasonal restrictions:** EXTREMELY dry or frozen ground conditions will be required for harvesting and hauling activities. Harvesting/skidding in the harvest area is limited to July 15 through the following spring break-up (approx March 15). Further seasonal restrictions may be imposed if excessive rutting occurs in the woods, the roads, or if excessive damage to residual trees occurs.

3. **Roads and access:** The main access road(Dave Wright Rd) from N Turcott Rd has a rock ford crossing Thunder Creek. Any temporary crossing materials (timber mats, poles, or pipes) must be placed between May 15 and Sept 15 due to the stream being classified as a trout stream. Mats may stay in place until the sale is completed. If poles or pipes are placed in the stream, they must be removed by March 15 to allow for fish passage. Existing roads may be opened and improved and landing sites may be constructed with prior approval of the County. All trails must be returned to their original condition or better at the end of sale operations. Bond money will not be returned until all road/trail/landing rehabilitation is satisfactorily complete.

4. No equipment is allowed within 15 ft of the wetland areas within or adjacent to the sale unless the ground is dry or frozen. No slash is to be left in any wetlands within or adjacent to the sale.

5. Slash must be pulled back 10 ft from the edge of all trails/roads and cut to less than 2 ft high within 20 ft of the trails/roads. Any trees felled across the red paint line must be pulled back onto county property before being processed.

6. No equipment is allowed across the RED PAINT LINE (RPL) marking the Price county/Chequamegon-Nicolet National Forest boundary. Any trees felled across the RPL onto CNNF lands must be pulled back onto county property before being processed. There is a survey monument on the southern end of the property boundary. Do not cut the red painted trees or disturb the survey monument.

7. There is a game opening in the south end of the sale area. The game opening may be used as a landing, if it is, all topsoil that is removed must be replaced and leveled at the end of the sale to allow for future maintenance.

8. All items listed in the Oneida County Timber Sale Contract apply. All applicable BMPs will be followed. Sale Est. JF/WI DNR 8/26

Town of Lynne
Contract No.: _____
Contractor: _____
Date Sold: _____
Date Completed: _____
Contract Length: 3 years

Harvest Regulations:

- 1. Marked Hardwood Area:** Harvest all trees marked with orange paint, leaving orange visible on the stump and all ironwood over 1" DBH. EXTREME CAUTION must be used to protect existing hardwood regeneration. Excessive damage to regen may result in further equipment restrictions (such as no hot saws or fixed head harvesters only), or contract cancellation. Slash must be evenly distributed across sale area (no large piles). NO WHOLE TREE OR POLE LENGTH SKIDDING. Utilization on all species is a 100" stick to a 4" top or whole tree. If harvesting whole tree, every 10th tree top above the standard 4" diameter must be left evenly scattered in the woods. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard.
- 2. Seasonal Restrictions:** Extremely dry or frozen ground conditions will be required for harvesting and hauling activities. The presence of black ash draws within the sale area will likely require frozen ground. Harvesting/skidding in the harvest area is limited to July 15 through the following spring break-up (approx March 15). Further seasonal restrictions may be imposed if excessive rutting occurs in the woods, the roads, or if excessive damage to residual trees occurs.
- 3. Roads and Access:** New access roads may be permitted with prior approval of the County. Existing roads may be opened and improved and landing sites may be constructed with prior approval of the County. All roads and trails used must be returned to their original condition or better at the end of sale operations. Any new roads must be blocked at the end of the sale, and any other roads must be blocked if previously blocked. Bond money will not be returned until all road/landing rehabilitation is satisfactorily complete. Decking or skidding on the town roads is prohibited unless permission is obtained from the Town of Lynne. The road must be repaired to the satisfaction of the town if it is used for skidding or decking.
- 4.** No equipment is allowed within 15 ft of the wetland areas within or adjacent to the sale unless the ground is dry or frozen. No slash is to be left in any wetlands within or adjacent to the sale.
- 5. ABSOLUTELY NO ACTIVITY IS ALLOWED WITHIN THE EXCLUSION AREA!** This includes the felling of trees into this area. Any disturbance to these sites will result in immediate termination of the contract and retention of performance bond.
- 6.** Slash must be pulled back 10 ft from the edge of all trails/roads and cut to less than 2 ft high within 20 ft of the trails/roads.
- 7.** All items listed in the Oneida County Timber Sale Contract apply. All applicable BMPs will be followed. Sale Est. JT/OCF/WI DNR 11/21, Updated 9/26

Harvest Regulations:

1. **Marked Hardwood Area:** Harvest all trees marked with orange paint, leaving orange visible on the stump and all balsam fir and ironwood over 1" DBH. Cut all trees with 50% or more of the top broken off and trees that are root sprung or leaning more than 30 degrees if they are still salvageable. EXTREME CAUTION must be used to protect existing hardwood regeneration. Excessive damage to regen may result in further equipment restrictions (such as no hot saws or fixed head harvesters only), or contract cancellation. Slash must be evenly distributed across sale area (no large piles). NO WHOLE TREE OR POLE LENGTH SKIDDING. Utilization on all species is a 100" stick to a 4" top. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard.

2. **Seasonal Restrictions:** Dry or frozen ground conditions will be required for harvesting and hauling activities. There are numerous wet stretches on the access road so frozen conditions will likely be required. Harvesting/skidding in the harvest area is limited to July 15 through the following spring break-up (approx March 15). Further seasonal restrictions may be imposed if excessive rutting occurs in the woods, the roads, or if excessive damage to residual trees occurs.

3. **Roads and Access:** No new access roads will be permitted. Existing roads may be opened and improved and landing sites may be constructed with prior approval of the County. All roads and trails used must be returned to their original condition or better at the end of sale operations. The main access off of McCord Rd must be blocked with rocks/stumps or a berm at the end of each harvest season and at the end of the sale. Bond money will not be returned until all road/landing rehabilitation is satisfactorily complete.

4. No equipment is allowed within 15 ft of the wetland areas within or adjacent to the sale unless the ground is dry or frozen. No slash is to be left in any wetlands within or adjacent to the sale.

5. All items listed in the Oneida County Timber Sale Contract apply. All applicable BMPs will be followed. Sale Est. MO/OCF/WI DNR 11/21, Updated 9/26

HARVEST REGULATIONS

- Selection Harvest Area:** harvest all orange-marked trees, all balsam 1" DBH and greater, all ironwood and musclewood 1" DBH and greater, and all ash 6" DBH and greater. Utilization on all species is a 100" stick to a 4" top. Whole tree utilization is not allowed to protect residual hardwood. No whole tree skidding is allowed. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard. EXTREME care must be given to protecting existing hardwood regeneration.
- Seasonal Restrictions:** Dry or frozen ground conditions are required to prevent soil damage. Harvesting will be allowed only between July 15 through the following spring break-up (approximately March 15) to minimize damage to residual trees. Time restrictions may be imposed if rutting occurs in the woods or on roads or if excessive damage to residual trees occurs.
- No new roads will be permitted without the permission of the County. Existing roads may be opened and landing sites may be constructed with prior approval of the County. All trails will be returned to their original condition or better at the end of the sale. Bond money will not be returned until all road and landing rehab is complete. Decking and skidding is prohibited on town roads unless permission is obtained from the Town of Lynne.
- No equipment or slash is allowed in wetland or ephemerally wet areas within or adjacent to the sale. Equipment may not be operated within 15 feet of any wetland unless ground is dry or frozen.
- The survey monument and any witness trees are marked with blue paint and must not be damaged.
- Flowage Road is used as an ATV and snowmobile trail. The Minocqua Forest Riders snowmobile trail directly borders the sale area. Slash must be pulled back a minimum of 10 feet from the edge of the trail and must be cut to no higher than 2 feet off the ground within 25 feet of this road. If operations occur during snowmobile season, snowmobile trails directly associated with the timber sale area must remain snow-covered to the extent possible for the duration of snowmobile season. Cautionary signs must be placed along Flowage Road and snowmobile trail at both ends of the sale area for the duration of all harvest and trucking operations.
- Permission will need to be obtained by the contractor from the landowner to use the segment of snowmobile trail from Flowage Road to the gate (60').
- All items listed in the Oneida County Timber Sale Contract apply. All BMPs will be followed.

Tract # 14-25
Town of Lynne
Contract No.: _____
Contractor: _____
Date Sold: _____
Date Completed: _____
Contract Length: 3 years

Harvest Regulations:

- In the overstory removal area:** harvest all trees greater than 6" DBH except spruce, hemlock, cedar, elm, and trees marked with green paint. Dead ash was not cruised but may be utilized if sound. **EXTREME CAUTION** must be used to protect existing hardwood regeneration. Do not skid through, drop trees into, or drag tops through concentrated areas of hardwood or aspen saplings. If regeneration is not protected, the contractor may be required to directionally fell trees into harvester path, limb/top in same path, with skidder following harvester path. Excessive damage to regen may result in further equipment restrictions (such as no hot saws or fixed head harvesters only), or contract cancelation. Slash must be evenly distributed across sale area (no large piles). **NO WHOLE TREE OR POLE LENGTH SKIDDING.** Utilization on all species is a 100" stick to a 4" top. No whole tree harvesting is allowed. Any den or nest trees shall be left uncut. Standing dead trees are not to be cut unless they pose a safety hazard.
- Seasonal restrictions:** Harvesting/skidding is limited to July 15 through the following spring break-up (approximately March 15). Harvesting/skidding in the harvest area is permitted only under very dry or frozen-ground conditions. Further seasonal restrictions may be imposed if excessive rutting occurs in the woods, the roads, or if excessive damage to residual trees occurs.
- Roads and access:** No new roads are permitted. Existing roads may be opened and improved and landing sites may be constructed with prior approval of the County. Access roads connecting to South Turcott Rd must be blocked with berms/rocks or a gate at the end of each harvest season and at the end of the sale if previously blocked. All trails must be returned to their original condition or better at the end of sale operations. Bond money will not be returned until all road/landing rehabilitation is satisfactorily complete. Decking along South Turcott Rd is only allowed with permission from the Town of Lynne. Signs will be needed on South Turcott Rd to notify users of logging operations occurring.
- No equipment is allowed in the wetland areas within or adjacent to the sale unless the ground is dry or frozen. Minimize dropping trees outside of the red paint line and/or into wetland areas. Any trees felled outside the harvest area must be pulled back into the sale area before being processed. No slash is to be left in any wetlands within or adjacent to the sale. Equipment may not be operated within 15 ft of any wetland unless ground is dry or frozen.
- Harvest area is bounded by red paint except where it follows South Turcott Rd. and wetland areas on the western edge of the sale.
- Slash must be pulled back 10 ft from the edge of all trails/roads and cut to less than 2 ft high within 20 ft of the trails/roads. South Turcott Rd must be repaired to the satisfaction of the town if it is used for decking/hauling.
- All items listed in the Oneida County Timber Sale Contract apply. All applicable BMPs will be followed.
