

Public Involvement Handout

**County L
Lincoln County Line to US 51
Oneida County**

Project ID: 9876-00-71

**Public Comment Period:
February 14, 2023 to March 29, 2023**

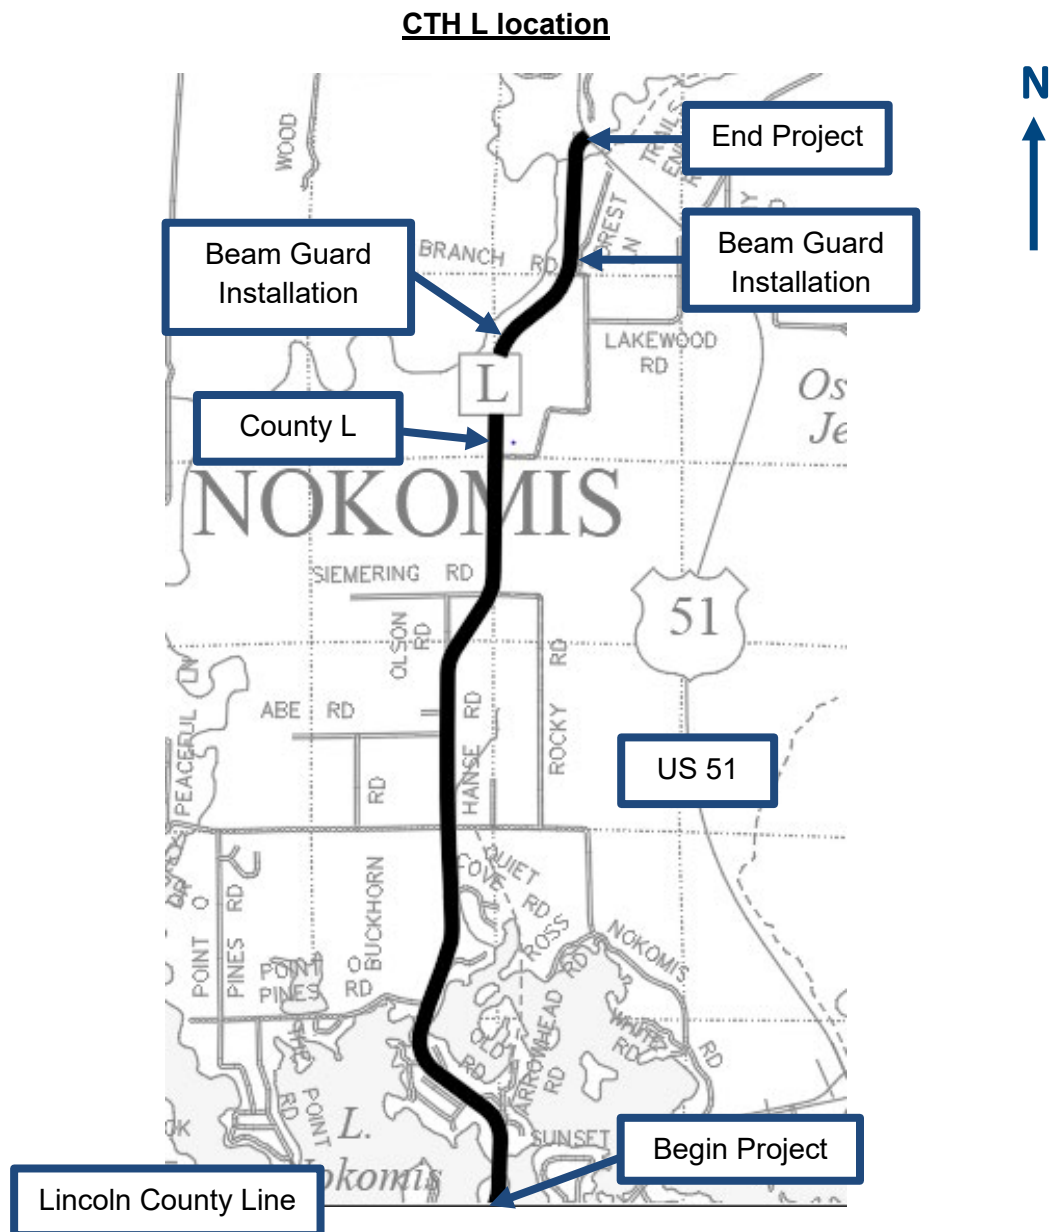

Purpose

Our objective is to obtain your input on the proposed improvement along County L from the Lincoln County Line to US 51 in the Town of Nokomis, Oneida County.

Project information

WisDOT and Oneida County are proposing to improve 6.03 miles of County L. The existing pavement is aged and deteriorated with potholes, longitudinal, transverse, and block cracking, resulting in a rough riding surface.

The purpose of the proposed action is to preserve County L and maximize the life of the roadway.

Proposed improvements

The proposed project includes milling 3-inches of pavement and overlaying 3.5-inches of hot mix asphalt on top of the remaining asphaltic mat. The proposed shoulders will match the existing 8-foot shoulders (3-foot paved, 5-foot unpaved). Existing cable barrier at two locations will be replaced with beam guard and energy absorbing terminals.

Proposed traffic impacts

Construction is anticipated to begin in the spring/summer of 2025.

During construction, County L will remain open to traffic. Motorists can expect to encounter temporary single-lane closures with flagging operations.

Brief interruptions in access may occur temporarily at driveways and field entrances when construction operations occur immediately in front of the entrance. The construction project manager will be required to contact landowners in advance before closing driveways. If you have special access needs during construction, please let us know so these can be considered as much as possible, and if needed, included in the bidding documents.

Construction is currently scheduled for completion in the fall of 2025.

Real estate

No additional right of way is anticipated for this project.
