DRIVEWAY PERMITS

A check for \$50.00, made to Oneida County Highway Department, must be submitted to the above address along with the driveway permit application. After the permit and check are received, the Commissioner will inspect the proposed location of the driveway for safety, visibility, and drainage requirements. After the permit is approved, a copy will be mailed to you, and construction can begin. When the driveway is finished, top soiled and seeded, contact the Highway Department at the above telephone number for final inspection. The Commissioner will again inspect the driveway for compliance. If for any reason the driveway is not in compliance, the Commissioner will contact you with further instructions.
