POWTS ABANDONMENT INFORMATION

Oneida County is required to maintain an inventory of POWTS (also known as a septic system) in Oneida County. If a POWTS is no longer in operation for any reason, Wisconsin Administrative Code, DSPS 383.33, requires that the system be permanently abandoned. In order to remove your POWTS from the county inventory and stop the triennial reporting requirement, you must have your POWTS properly abandoned and submit a POWTS abandonment form (located on the back of this letter) to our office at the address given above.

In order to properly abandon a POWTS, DSPS 383.33 requires the following:

1. Disconnect all piping to the tanks and/or pits;
2. Seal all disconnected piping to the tanks and pits as per DSPS 382;
3. Pump and dispose of the contents from all tanks and pits by a WI licensed septic pumper; and
4. Remove or destroy all the tanks and fill the pits with clean native soil, gravel or inert solid material. Proper destruction of a tank left in place includes removal of the cover, breaking the bottom, and collapsing the side walls of the tank.

These abandonment requirements apply to all systems that are no longer in use, including but not limited to those that serve a structure that has been connected to public sewer, serve a structure that no longer exists on the property, or those that are no longer functional and are replaced by a new private sewage system.

Your assistance in this matter is greatly appreciated. If you have any questions, please feel free to contact the Planning and Zoning Department at (715) 369-6130.
