4. Presentation – Lacy Santilli, RN SANE/FNE Coordinator – Aspirus:

Ms. Lacy Santilli, Sexual Assault Nurse Examiner (SANE)/Forensic Nurse Examiner (FNE-Strangulation) presented to the group. She explained that there are currently five nurses who do these exams on adults. They currently do not do pediatric exams at Aspirus. Typically they perform 10-13 exams per year. So far in 2024 they have performed 6 exams. Referrals typically come from Tri-County Counsel or Law Enforcement. The procedure is to call an advocate and it is up to the advocate on what to do i.e. interview, exam etc. as each case is different. Ms. Santilli further explained that they also do suspect exams. The goal is to have a

mutli-disciplinary approach so resources can be given at the time as well as get the word out that Aspirus does these exams. The hope is to have a training in June with various counties which will be provided by the DOJ as many people are not aware of what services are available.

- c. **Funding Sub-Committee:** In the committees packets there were handouts on the Hope Consortium and Mental Health Practitioners list. The Funding Committee met yesterday with the focus being needing more substance use providers. It can take up to two months for individuals to get an assessment. We are working with Koller with the hope once this is finalized the assessment issue will be taken care of.

Currently Social Services has a Recovery Coach that is funded through AmeriCorp. It is being explored to make this a permanent position through Social Services, so we are looking at funding opportunities.
