SOLID WASTE DEPARTMENT

4. General Business Discussion/Act:

A. Solid Waste vendor vouchers

Motion by Timmons/Almekinder to approve the Solid Waste vendor vouchers. Motion carried (Roach absent).

5. Discussion/Act on bid received for the Solid Waste Scale Office Project

Cushing reported this item was previously approved by administration then pulled from the County Board agenda and sent back to the Public Works Committee.

Fugle commented it was sent back to reconsider the funding noting the committee could do what they wished with it in that regard.

Cushing commented they discussed funding the project through the general fund and using the ARPA funding for other projects.

Smigielski commented normally a project of this size would be considered in the fall by the CIP Committee, or the budget process noting there was confusion regarding the concept that the project would need to be delayed if not funded by surplus department

dollars. Citing public discussions about safety concerns for both customers and staff, Smigielski commented there was the sense something should be done sooner than later. Smigielski stated the committee could request a one-time transfer of general fund surplus that was not subject to repayment, or an additional loan could be requested with either option requiring a two-third majority vote of the county board.

Timmons questioned Smigielski about the negatives to using the ARPA funds.

Smigielski commented there were quarterly reporting requirements noting the general fund was only restricted by county code and state statutes.

Smigielski estimated between \$5 million to \$7 million was being returned to the general fund.

Leon Holewinski stated he would have no problem if the county used money from the general fund but was concerned about the paperwork associated with the ARPA funds. Holewinski commented he did not want to get involved with a conflict of interest stating if he thought it would be a problem he would not have bid it.

Both Cushing and Timmons agreed there was no conflict of interest.

Motion by Timmons/Almekinder to send it back to Admin and go for the one-time shot out of the general fund.

Fugle noted that he did not believe there was a conflict of interest but the prudent thing was to have this come back before this committee to make a new discussion.

Holewinski added materials were hard to get and windows were 20 weeks out.

Cushing noted it would need to go before the May County Board on the 17th with Admin meeting on May 9 or possibly earlier.

No further discussion. Motion carried.

6. Solid Waste Report/Discussion

• General Business

Jolin reported there were 5 compost preorders.
